# 108 Finger Permutations - Level 10

## Odd-Count Position Transfer: 3+1 / 1+3 Shift-Point Control

Level 9 shifted after note 2. Level 10 moves the relocation to an odd-count boundary while the pick remains on one string.

### 1. Keep both frames exact

P5: 1=5, 2=6, 3=7, 4=8.
P7: 1=7, 2=8, 3=9, 4=10.
Move the hand and thumb as one unit.
Use the assigned finger after every shift.
Overlapping fret numbers do not cancel the move.

### 2. Move the shift point

Mode A, 3+1: shift after note 3.
Mode B, 1+3: shift after note 1.
UP moves P5>P7; DOWN moves P7>P5.
The four-digit code order never changes.

### 3. Keep the pulse independent

Strict alternate picking continues through the shift.
Practice both downstroke and upstroke starts.
Do not reset the pick at the barline.
Remove slide noise, delay, and landing accents.

### Mode A - 3+1 Late Shift - code 1234

Digits 1-3 stay in the source frame; digit 4 lands in the destination frame.

**SHIFT UP - E>A>D>G>B>e  P5>P7**

```
F|1-2-3------|4----------|
S|5-6-7------|10---------|
```

**SHIFT DOWN - e>B>G>D>A>E  P7>P5**

```
F|1-2-3------|4----------|
S|7-8-9------|8----------|
```

**LANDING NOTE: 4** Lightly accent it only while learning the relocation.

**PICKING** `D-start D-U-D | U  U-start U-D-U | D`

*Do not restart or reverse the picking cycle at the shift boundary.*

### Mode B - 1+3 Early Shift - code 1234

Digit 1 starts in the source frame; digits 2-4 continue in the destination frame.

**SHIFT UP - E>A>D>G>B>e  P5>P7**

```
F|1----------|2-3-4------|
S|5----------|8-9-10-----|
```

**SHIFT DOWN - e>B>G>D>A>E  P7>P5**

```
F|1----------|2-3-4------|
S|7----------|6-7-8------|
```

**LANDING NOTE: 2** Lightly accent it only while learning the relocation.

**PICKING** `D-start D | U-D-U  U-start U | D-U-D`

*Do not restart or reverse the picking cycle at the shift boundary.*

### Session protocol

1. Choose one 12-exercise set and one mode.
2. Begin 8-12 BPM below your clean Level 9 continuous tempo.
3. Pass 1: pause at the barline and lightly accent the landing note.
4. Pass 2: remove the pause and accent; move from eighths to 16ths.
5. Run both routes and pick starts; use the +2 / -4-6 BPM rule.
6. Advance after 2 clean days; then restore triplet and quintuplet pulses.

# Level 10 - Odd-Count Position Transfer

## Set 1 of 9 - Mode A - 3+1 Late Shift - Exercises 001-012

Digits 1-3 stay in the source frame; digit 4 lands in the destination frame.
