Guitar Exercises - Section IX, Level 70

A melodic minor five-position map, horizontal routes, directional descents, seams, and full-register movement

5 POSITIONS | 8 MODULES | 898 TONES

Level 69 introduced A melodic minor, its raised sixth and seventh, two descending conventions, tonic colors, and seventh-chord harmony. Level 70 converts that material into a connected five-position fretboard system and separates modern symmetric descent from the classical natural-minor descent.

1. Build five frames

Each position contains three notes per string and overlaps its neighbor by two notes on every string.

2. Connect the seams

Seven-note seam loops preserve the pick cycle while the hand moves through shared anchors.

3. Choose the descent

Modern melodic minor keeps F# and G# descending. Classical practice returns through G and F.

A melodic minor - construction and directional options

```
A MELODIC MINOR      A  B  C  D  E  F# G# A
Degrees              1  2  b3 4  5  6  7  1
Steps                W  H  W  W  W  W  H

MODERN / SYMMETRIC DESCENT
A  G# F# E  D  C  B  A     degrees 1 7 6 5 4 b3 2 1

CLASSICAL DESCENT
A  G  F  E  D  C  B  A     degrees 1 b7 b6 5 4 b3 2 1
```

Written workload

Module	Tones
A - five positions	180
B - four seams	168
C - six lanes	94
D - sequences	88
E - two zigzags	180
F - directional cells	60
G - seam phrases	64
H - capstone	64
TOTAL	898

Session protocol

Choose one position or lane, one seam or zigzag, and one harmonic application. State the descending convention before beginning. Use clean tone, continue the alternate-picking cycle through every boundary, and stop the route when a note name, degree, or destination fret becomes uncertain.

DIRECTION RULE Never change F#/F or G#/G accidentally in the middle of a descent.

Guitar Exercises - Section IX, Level 70

Practice progression, error diagnosis, mastery gate, and log

NEXT: MELODIC-MINOR INTERVALS, ARPEGGIOS, AND MODES

ADVANCE AFTER THE MAP, DIRECTIONAL CHOICE, AND HARMONIC APPLICATION ARE ALL STABLE

Ten-phase practice progression

1. Spell A melodic minor and both descent forms.
2. Learn P1 and its three A roots.
3. Add P2-P5 and say every starting degree.
4. Play all five vertical cells with both pick starts.
5. Complete all four seam systems twice.
6. Play all six horizontal lanes.
7. Translate the sequence patterns through all positions.
8. Link both 90-tone zigzags.
9. Perform all directional and seam-phrase cells.
10. Play the sixteen-bar capstone twice.

Error diagnosis

WRONG F / F#	state the descent before beginning
WRONG G / G#	isolate the final two scale degrees
NOISY SEAM	release before moving; reduce 4-6 BPM
PICK RESET	air-pick the exact 18-, 36-, 42-, or 90-tone count
LATE DESTINATION	preview the fret during the previous two tones
LOST TONIC	stop on the nearest A and sing it
RIGID STRETCH	release and reform instead of clamping the full span

Mastery gate before Level 71

- ☐ Five positions, spans, starts, and A roots
- ☐ All 36-tone cells with D- and U-starts
- ☐ Four seams and six lanes without a pause
- ☐ Both 90-tone zigzags with continuous picking
- ☐ Sequence types translated to another position
- ☐ Modern and classical descents on command
- ☐ Four seam phrases and capstone on two days

Practice log

Date	Focus	D/U	BPM	Descent	Clean?	Weak seam / direction	Next target

NEXT Level 71 develops melodic-minor interval sequences, seventh-chord overlays, mode functions, and progression-specific applications.
