# Guitar Exercises - Section VIII, Level 65

A harmonic minor construction, leading-tone control, dominant harmony, and diminished resolution

**FIXED KEY: A | 10 MODULES | 652 TONES**

Section VIII begins by changing one note of A natural minor: G becomes G#. That raised seventh creates the leading tone, the strong E or E7 dominant, the G# diminished leading-tone chord, and the characteristic augmented second between F and G#. The objective is controlled function, not exotic-sounding scale runs.

### 1. Hear the leading tone

G# is not merely a raised fret. It must pull toward A and identify E or E7 when the dominant is active.

### 2. Control the augmented second

F to G# spans three semitones. Practice it slowly so the interval sounds intentional instead of like a missed scale step.

### 3. Connect scale and harmony

Am, Dm, E7, G#dim, and G#dim7 provide the structural destinations for the new scale color.

## Natural minor versus harmonic minor

```
A NATURAL MINOR    A  B  C  D  E  F  G  A
Degrees            1  2  b3 4  5  b6 b7 1
Steps              W  H  W  W  H  W  W

A HARMONIC MINOR   A  B  C  D  E  F  G# A
Degrees            1  2  b3 4  5  b6 7  1
Steps              W  H  W  W  H  aug2 H

HARMONIC RESULT    Em -> E or E7     G -> G#
LEADING-TONE CHORD G#dim or G#dim7 -> Am
```

## Written workload

| Module | Tones |
|---|---|
| A - scale comparison | 120 |
| B - leading tone | 36 |
| C - augmented second | 48 |
| D - melodic cells | 40 |
| E - harmonized triads | 56 |
| F - v / V / V7 | 72 |
| G - diminished resolution | 80 |
| H - five-zone phrases | 80 |
| I - model forms | 96 |
| J - recovery | 24 |
| TOTAL | 652 |

## Session protocol

Compare natural and harmonic minor before every new register. Sing G#-A and F-G#-A. Practice the scale route, one harmonic cell, and one progression phrase. Use the dominant and diminished chords as destinations rather than adding G# to every minor phrase.

**SPELLING RULE** In A harmonic minor, the seventh is G#, not Ab. The chord is G#dim, and E7 contains G#.

# Guitar Exercises - Section VIII, Level 65

Scale formula, harmonized chords, and dominant-function atlas

**1 2 b3 4 5 b6 7 | i ii° III+ iv V VI vii°**

## RAISING b7 TO 7 CHANGES THE DOMINANT AND LEADING-TONE HARMONY

### Harmonized A harmonic minor triads

| Degree | Chord | Spelling | Quality | Function |
|---|---|---|---|---|
| i | Am | A-C-E | minor | Tonic |
| ii° | Bdim | B-D-F | diminished | Predominant / unstable |
| III+ | Caug | C-E-G# | augmented | Tonic color / unstable |
| iv | Dm | D-F-A | minor | Predominant |
| V | E | E-G#-B | major | Strong dominant |
| VI | F | F-A-C | major | Predominant / tonic color |
| vii° | G#dim | G#-B-D | diminished | Leading-tone dominant |

### Seventh-chord extension map

| Degree | Chord | Spelling |
|---|---|---|
| i(maj7) | Am(maj7) | A-C-E-G# |
| iiø7 | Bm7b5 | B-D-F-A |
| IIImaj7#5 | Cmaj7#5 | C-E-G#-B |
| iv7 | Dm7 | D-F-A-C |
| V7 | E7 | E-G#-B-D |
| VImaj7 | Fmaj7 | F-A-C-E |
| vii°7 | G#dim7 | G#-B-D-F |

### Four essential destinations

```
Am      i       tonic
Dm      iv      predominant
E / E7  V / V7  strong dominant
G#dim   vii°    leading-tone chord
G#dim7  vii°7   leading-tone seventh
```

C augmented belongs to the scale, but the first practical destinations are i, iv, V7, and vii°.

**FUNCTION RULE** G# may lead to A melodically, form the third of E7, or act as the root of G#dim. Name the job before playing it.

# Guitar Exercises - Section VIII, Level 65

Module A - natural versus harmonic minor comparison on six strings

**6 CELLS | 42 TONES**

## COMPARE b7, 7, AND THE TONIC ON THE SAME STRING

Every seven-note cell plays G-A, then G#-A, then the full G-G#-A comparison. Keep the rhythm and volume identical. The natural-minor b7 should sound modal; the harmonic-minor 7 should pull more

### Low E

b7-1 | 7-1 | b7-7-1

```

  B|-----------------------------------
  G|-----------------------------------
  D|-----------------------------------
  A|-----------------------------------
  E|-----------------------------------
```

### Listening test

Record the G-A and G#-A pairs without announcing them. The harmonic-minor pair should sound more directional. If not, lengthen A and reduce any accent on the approach note.

# Guitar Exercises - Section VIII, Level 65

Module A - one-octave harmonic-minor routes

**3 ROUTES | 48 TONES**

## SAME EIGHT DEGREES IN THREE REGISTERS

Each route ascends A-B-C-D-E-F-G#-A and mirrors back to the starting tonic. The highest A is repeated at the turnaround, producing sixteen tones per cell.

### Open-position octave

16-tone mirror; repeat with D-start and U-start.

```
Nte|A---B---C---D---E---F---G#--A---|A---G#--F---E---D---C---B---A---
Deg|1---2---b3--4---5---b6--7---1---|1---7---b6--5---4---b3--2---1---
Rol|---------------------------------|---------------------------------
  e|---------------------------------|---------------------------------
  B|---------------------------------|---------------------------------
  G|-------------------------1---2---|2---1-------------------------
  D|-------------0---2---3-----------|--------3---2---0---------------
  A|0---2---3-----------------------|--------------------3---2---0---
  E|---------------------------------|---------------------------------
```

### Fifth-position octave

16-tone mirror; repeat with D-start and U-start.

```
Nte|A---B---C---D---E---F---G#--A---|A---G#--F---E---D---C---B---A---
Deg|1---2---b3--4---5---b6--7---1---|1---7---b6--5---4---b3--2---1---
Rol|---------------------------------|---------------------------------
  e|---------------------------------|---------------------------------
  B|---------------------------------|---------------------------------
  G|---------------------------------|---------------------------------
  D|-------------------------6---7---|7---6-------------------------
  A|-------------5---7---8-----------|--------8---7---5---------------
  E|5---7---8-----------------------|--------------------8---7---5---
```

### Twelfth-position octave

16-tone mirror; repeat with D-start and U-start.

```
Nte|A---B---C---D---E---F---G#--A---|A---G#--F---E---D---C---B---A---
Deg|1---2---b3--4---5---b6--7---1---|1---7---b6--5---4---b3--2---1---
Rol|---------------------------------|---------------------------------
  e|---------------------------------|---------------------------------
  B|---------------------------------|---------------------------------
  G|-------------------------13--14--|14--13-------------------------
  D|-------------12--14--15----------|--------15--14--12--------------
  A|12--14--15----------------------|--------------------15--14--12--
  E|---------------------------------|---------------------------------
```

# Guitar Exercises - Section VIII, Level 65

Module A - two-octave route and interval checkpoints

**30-TONE MIRROR | AUGMENTED SECOND INSIDE THE SCALE**

## THE SCALE IS SEVEN NOTES; THE AUGMENTED SECOND IS ONE INTERNAL INTERVAL

### Two-octave fifth-position route

15 tones up, repeated high A, 15 tones down. Keep the pick cycle continuous.

```
Nte|A---B---C---D---E---F---G#--A---B---C---D---E---F---G#--A---|A---G#--F---E---D---C---B---A---G#--F---E---D---C---B---A---
Deg|1---2---b3--4---5---b6--7---1---2---b3--4---5---b6--7---1---|1---7---b6--5---4---b3--2---1---7---b6--5---4---b3--2---1---
Rol|-----------------------------------------------------------|-----------------------------------------------------------
  e|-----------------------------------------------------------|-----------------------------------------------------------
  B|-----------------------------------------------9---10--|10--9-----------------------------------------------------------
  G|-----------------------------------7---9---10----------|--------10--9---7-------------------------------------------
  D|-----------------------6---7---9---10-----------------|-------------------10--9---7---6-------------------------
  A|-----------5---7---8-----------------------------------|---------------------------------8---7---5-----------------
  E|5---7---8-----------------------------------------------|-----------------------------------------------8---7---5---
```

### Interval checkpoints

| | | |
|---|---|---|
| B -> C | 2 -> b3 | half step |
| E -> F | 5 -> b6 | half step |
| F -> G# | b6 -> 7 | augmented second |
| G# -> A | 7 -> 1 | half step |

### Three passes

1. Say every degree. 2. Accent G# and A only. 3. Remove the accents while preserving the pull of G# into A. Do not speed through F-G# to hide the wider interval.

**TEMPO RULE** Increase speed only after F-G# and G#-A remain rhythmically equal to the other scale steps.

# Guitar Exercises - Section VIII, Level 65

Module B - leading-tone resolution on six strings

6 CELLS | 36 TONES

## G# MUST LEAD TO A WITHOUT LOSING THE BEAT

Each six-note cell uses 7-1-2-1-7-1. Sustain the final A. First pick every note. Later replace one G#-A pair with a slide, hammer-on, or half-step bend where the string tension is comfortable.

### Low E

7-1-2-1-7-1

```
Nte|G#----A-----B-----A-----G#----A-----
Deg|7-----1-----2-----1-----7-----1-----
Rol|7-----1-----2-----1-----7-----1-----
  e|-----------------------------------
  B|-----------------------------------
  G|-----------------------------------
  D|-----------------------------------
  A|-----------------------------------
  E|4-----5-----7-----5-----4-----5-----
```

### A

7-1-2-1-7-1

```
Nte|G#----A-----B-----A-----G#----A-----

Rol|7-----1-----2-----1-----7-----1-----
  e|-----------------------------------
  B|9-----10----12----10----9-----10----
  G|-----------------------------------
  D|-----------------------------------
  A|-----------------------------------
  E|-----------------------------------
```

### High e

7-1-2-1-7-1

```
Nte|G#----A-----B-----A-----G#----A-----
Deg|7-----1-----2-----1-----7-----1-----
Rol|7-----1-----2-----1-----7-----1-----
  e|16----17----19----17----16----17----
  B|-----------------------------------
  G|-----------------------------------
  D|-----------------------------------
  A|-----------------------------------
  E|-----------------------------------
```

### Resolution audit

Play G# alone, then A alone, then the pair. G# should sound incomplete while A sounds settled. If the pair sounds like two unrelated notes, sing 7-1 before playing.

# Guitar Exercises - Section VIII, Level 65

Module C - augmented-second control on six strings

**6 CELLS | 48 TONES**

## E-F-G#-A EXPOSES THE CHARACTERISTIC 5-b6-7-1 MOTION

Each eight-note cell ascends 5-b6-7-1 and returns 1-7-b6-5 before resolving to A. F-G# spans three semitones. Prepare the destination fret before releasing F.

### Low E

5-b6-7-1-7-b6-5-1

```
Nte|E----F----G#---A----G#---F----E----A----

Rol|5----b6---7----1----7----b6---5----1----
  e|-----------------------------------------
  B|5----6----9----10---9----6----5----10---
  G|-----------------------------------------
  D|-----------------------------------------
  A|-----------------------------------------
  E|-----------------------------------------
```

### High e

5-b6-7-1-7-b6-5-1

```
Nte|E----F----G#---A----G#---F----E----A----
Deg|5----b6---7----1----7----b6---5----1----
Rol|5----b6---7----1----7----b6---5----1----
  e|12---13---16---17---16---13---12---17---
  B|-----------------------------------------
  G|-----------------------------------------
  D|-----------------------------------------
  A|-----------------------------------------
  E|-----------------------------------------
```

### Physical boundary

Use a hand shift rather than a rigid stretch when needed. The interval is three frets, but the hand does not have to remain fixed. Stop for pain or persistent tension.

# Guitar Exercises - Section VIII, Level 65

Module D - five harmonic-minor melodic cells

**5 CELLS | 40 TONES**

## THE SCALE IS ORGANIZED BY DESTINATION, NOT BY AUTOMATIC UP-AND-DOWN MOTION

Each eight-note cell highlights a different melodic behavior: complete scale, dominant approach, leading-tone sequence, controlled descent, or tonic-color arc. Keep the final A longer than the preceding note.

### 1. Complete ascending scale

Eight tones; name the final function before playing.

```
Nte|A----B----C----D----E----F----G#---A----
Deg|1----2----b3---4----5----b6---7----1----
Rol|---------------------------------------
  e|---------------------------------------
  B|---------------------------------------
  G|---------------------------------------
  D|-----------------------------6----7----
  A|--------------5----7----8--------------
  E|5----7----8-----------------------------
```

### 2. Dominant approach cell

Eight tones; name the final function before playing.

```
Nte|E----F----G#---A----G#---F----E----A----
Deg|5----b6---7----1----7----b6---5----1----
Rol|---------------------------------------
  e|---------------------------------------
  B|---------------------------------------
  G|---------------------------------------
  D|----------6----7----6--------------7----
  A|7----8------------------8----7---------
  E|---------------------------------------
```

### 3. Leading-tone sequence

Eight tones; name the final function before playing.

```
Nte|C----D----E----F----G#---A----B----A----
Deg|b3---4----5----b6---7----1----2----1----
Rol|---------------------------------------
  e|---------------------------------------
  B|---------------------------------------
  G|---------------------------------------
  D|-------------------6----7----9----7----
  A|-----5----7----8------------------------
  E|8---------------------------------------
```

### 4. Complete descending scale

Eight tones; name the final function before playing.

```
Nte|A----G#---F----E----D----C----B----A----
Deg|1----7----b6---5----4----b3---2----1----
Rol|---------------------------------------
  e|---------------------------------------
  B|---------------------------------------
  G|---------------------------------------
  D|7----6----------------------------------
  A|----------8----7----5--------------------
  E|------------------------8----7----5----
```

### 5. Tonic-color arc

Eight tones; name the final function before playing.

```
Nte|A----C----E----F----G#---A----E----A----
Deg|1----b3---5----b6---7----1----5----1----
Rol|---------------------------------------
  e|---------------------------------------
  B|---------------------------------------
  G|---------------------------------------
  D|-------------------6----7---------7----
  A|----------7----8--------------7---------
  E|5----8-----------------------------------
```

# Guitar Exercises - Section VIII, Level 65

Module E - harmonized A harmonic-minor triad atlas

7 TRIADS | SCALE-DEGREE FUNCTION

## EVERY SCALE DEGREE RECEIVES A TRIAD; FOUR OF THEM DRIVE THE CORE PRACTICE

### Triad spelling and function

| Degree | Chord | Spelling | Quality | Function |
|---|---|---|---|---|
| i | Am | A-C-E | minor | Tonic |
| ii° | Bdim | B-D-F | diminished | Predominant / unstable |
| III+ | Caug | C-E-G# | augmented | Tonic color / unstable |
| iv | Dm | D-F-A | minor | Predominant |
| V | E | E-G#-B | major | Strong dominant |
| VI | F | F-A-C | major | Predominant / tonic color |
| vii° | G#dim | G#-B-D | diminished | Leading-tone dominant |

### Core functional set

```
i      Am      A-C-E
iv     Dm      D-F-A
V      E       E-G#-B
vii°   G#dim   G#-B-D
```

### Characteristic color chords

```
ii°    Bdim    B-D-F
III+   Caug    C-E-G#
VI     F       F-A-C
```

Learn these after the functional i-iv-V-vii° group is secure.

**EAR TEST** Play Em and E major back to back. The G# in E major should create a stronger pull toward Am.

# Guitar Exercises - Section VIII, Level 65

Module E - seven harmonized-triad arpeggio cells

**7 CELLS | 56 TONES**

## FOUR TONES UP, REPEATED HIGHEST TONE, FOUR TONES DOWN

The printed route spells each triad and repeats the root at the top. Accent the quality-defining third or altered fifth. The diminished and augmented cells must not be blurred into ordinary minor or major arpeggios.

### Am (i)

8-tone mirror.

Module F - natural v, strong V, and V7 arpeggio comparison

**3 CELLS | 24 TONES**

## THE THIRD CHANGES THE DOMINANT FUNCTION: G -> G#

Play Em, E, and E7 from the same E root. The minor v preserves natural minor. The major V introduces the leading tone. V7 adds D, the flat seventh, and strengthens the dominant pull.

### Em natural v

8-tone mirror; hold the final E.

```
Nte|E----G----B----E----|E----B----G----E----
Deg|5----b7---2----5----|5----2----b7---5----
Rol|R----b3---5----R----|R----5----b3---R----
  e|--------------------|--------------------
  B|---------------5----|5--------------------
  G|----------4---------|-----4--------------
  D|-----5--------------|----------5---------
  A|7-------------------|--------------7-----
  E|--------------------|--------------------
```

### E strong V

8-tone mirror; hold the final E.

```
Nte|E----G#---B----E----|E----B----G#---E----
Deg|5----7----2----5----|5----2----7----5----
Rol|R----3----5----R----|R----5----3----R----
  e|--------------------|--------------------
  B|---------------5----|5--------------------
  G|----------4---------|-----4--------------
  D|-----6--------------|----------6---------
  A|7-------------------|--------------7-----
  E|--------------------|--------------------
```

### E7 strong V7

8-tone mirror; hold the final E.

```
Nte|E----G#---B----D----|D----B----G#---E----
Deg|5----7----2----4----|4----2----7----5----
Rol|R----3----5----b7---|b7---5----3----R----
  e|--------------------|--------------------
  B|--------------------|--------------------
  G|----------4----7----|7----4--------------
  D|-----6--------------|----------6---------
  A|7-------------------|--------------7-----
  E|--------------------|--------------------
```

### Hearing sequence

Play Em -> Am, then E -> Am, then E7 -> Am. The stronger V and V7 should make the tonic arrival more directional. Do not compensate by playing them louder.

### Voice-leading sequence

```
Em -> Am:  G -> A

E  -> Am:  G# -> A

E7 -> Am:  G# -> A
           D  -> C
```

**RULE** Use Em when modal/natural-minor color is desired; use E or E7 when a strong tonic resolution is required.

# Guitar Exercises - Section VIII, Level 65

Module F - i-iv-v, i-iv-V, and i-iv-V7 progression comparison

**3 PHRASES | 48 TONES**

## THE FIRST TWO BARS STAY FIXED; ONLY THE DOMINANT BAR CHANGES

Each four-bar phrase uses four quarter-note chord tones per bar. Compare the harmonic pull of Em, E, and E7 while keeping Am, Dm, the tonic resolution, rhythm, register, and dynamics unchanged.

### 1. Natural-minor cadence | Am | Dm | Em | Am |

  A|----15----------|17--------------|----------------|----15----------|
  E|17--------------|----------------|----16----------|17--------------|
```

**VARIATION** Replace one F-G# leap with a scale fragment, but keep the beat-one target and final A unchanged.

# Guitar Exercises - Section VIII, Level 65

Module I - eight-bar harmonic-minor model phrase

**8 BARS | 32 TONES**

## PROGRESSION: | Am | Dm | E7 | Am | F | Dm | E7 | Am |

The model moves from the low root area to the upper register. Each bar contains four quarter-note chord tones or scale-compatible colors. Bar 7 exposes G#; bar 8 confirms A minor.

### Bars 1-4: Am | Dm | E7 | Am

4 bars x 4 tones.

```
Nte|A---C---E---A---|D---F---A---C---|E---G#--B---D---|A---C---E---A---|
Deg|1---b3--5---1---|4---b6--1---b3--|5---7---2---4---|1---b3--5---1---|
Rol|>R--b3--5---R---|>R--b3--5---b7--|>R--3---5---b7--|>R--b3--5---R---|
  e|----------------|----------------|----------------|----------------|
  B|----------------|----------------|----------------|------------10--|
  G|----------------|------------5---|--------4---7---|--------9-------|
  D|------------7---|--------7-------|----6-----------|7---10----------|
  A|--------7-------|5---8-----------|7---------------|----------------|
  E|5---8-----------|----------------|----------------|----------------|
```

### Bars 5-8: F | Dm | E7 | Am

4 bars x 4 tones.

```
Nte|F---A---C---F---|D---F---A---C---|E---G#--B---D---|A---C---E---A---|
Deg|b6--1---b3--b6--|4---b6--1---b3--|5---7---2---4---|1---b3--5---1---|
Rol|>R--3---5---R---|>R--b3--5---b7--|>R--3---5---b7--|>R--b3--5---R---|
  e|----------------|----------------|----------------|----------------|
  B|------------6---|--------10--13--|--------12--15--|----------------|
  G|--------5-------|----10----------|----13----------|------------14--|
  D|----7-----------|12--------------|14--------------|--------14------|
  A|8---------------|----------------|----------------|----15----------|
  E|----------------|----------------|----------------|17--------------|
```

### Three passes

1. Pick every note as quarters. 2. Turn notes 2-4 of each bar into eighth-note or shuffle motion while preserving beat 1. 3. Add one slide, hammer, pull, or bend per bar without changing the sounding rhythm.

# Guitar Exercises - Section VIII, Level 65

Module I - sixteen-bar harmonic-minor capstone

**16 BARS | 64 TONES**

## i-iv-V7-i, VI-iv-V7-i, ii°-V7-i, AND vii°7-V7-i

The capstone combines the core harmonic-minor functions. Each bar contains four tones. Announce the next chord on beat 4. The final two bars sustain A minor rather than launching another cycle.

### Bars 1-4: Am | Dm | E7 | Am

```
Nte|A---C---E---A---|D---F---A---C---|E---G#--B---D---|A---C---E---A---|
