Guitar Exercises - Section VII, Level 61

Chord-tone soloing, chromatic approaches, enclosures, delayed resolution, and progression-specific phrases

10 MODULES | 816 TONES

Level 60 established seventh-chord arpeggios. Level 61 turns those shapes into melodic phrases. Chord tones define the destination; diatonic and chromatic notes create motion; enclosures frame a target; delayed resolutions create tension without losing the progression.

1. Name the destination

Choose the chord and target before selecting the approach. A phrase without a destination is only a note collection.

2. Approach, do not replace

Chromatic and diatonic neighbors lead into a chord tone. They do not become equal resting points.

3. Resolve on purpose

Land early, late, or through an enclosure because the phrase demands it, not because the hand found a nearby fret.

Core phrase grammar

```
TARGET FIRST       target - fill - space
APPROACH BELOW     below* -> target
APPROACH ABOVE     above* -> target
ENCLOSURE          above* -> below* -> target
DELAYED RESOLUTION tension on beat 1 -> target on & or beat 2

MAJOR ii-V-I       ii m7 -> V7 -> I maj7
MINOR iiø-V-i      ii m7b5 -> V7 -> i m7

* approach notes are temporary unless they also belong to the active chord or key.
```

Written workload

Module	Tones
A target cells	64
B approaches	120
C enclosures	64
D delayed	48
E major phrases	72
F minor phrases	72
G five zones	80
H motif/recovery	72
I model solos	96
J capstones	128
TOTAL	816

Session protocol

Choose one target quality, one approach type, and one progression phrase. Play the target alone first. Sing the target. Add the approach at half speed. Preserve the barline and leave at least one complete beat of space after every two-bar statement.

ASTERISK RULE Chromatic approaches and enclosures are temporary. The target receives the harmonic weight.

Guitar Exercises - Section VII, Level 61

Target hierarchy, approach directions, enclosure formulas, and timing

TARGET -> APPROACH -> RESOLUTION

A CHROMATIC NOTE IS CORRECT ONLY WHEN ITS DESTINATION AND TIMING ARE CLEAR

Target hierarchy

Quality	Chord tones	Primary phrase targets	Color boundary
maj7	R 3 5 7	3 and 7; root for closure	4 and b7 need context
7	R 3 5 b7	3 and b7	11 and 13 are motion unless sustained intentionally
m7	R b3 5 b7	b3 and b7	9 and 11 are open colors
m7b5	R b3 b5 b7	b3, b5, and b7	perfect 5 changes the quality

Approach formulas

```
CHROM BELOW   target-1 fret -> target
CHROM ABOVE   target+1 fret -> target
DIATONIC BELOW adjacent scale tone -> target
DIATONIC ABOVE adjacent scale tone -> target
DOUBLE         reference -> below -> T -> above -> T
```

Enclosure formulas

```
ABOVE-BELOW-TARGET-TARGET
BELOW-ABOVE-TARGET-TARGET
DIATONIC ABOVE + CHROM BELOW + TARGET
CHROM ABOVE + DIATONIC BELOW + TARGET

The final repeated target proves the pitch center.
```

Delayed-resolution grid

```
Count|1---&---2---&---3---&---4---&---|
Role |TENSION-TARGET-CHORD-TARGET-------|
Rule |keep beat 1; resolve by & of 1 or beat 2; leave later space|
```

Guitar Exercises - Section VII, Level 61

Module A - chord-tone target landing cells

Cmaj7 / G7 | 32 TONES

FOUR CHORD TONES; ROTATE THE ORDER SO EACH ROLE BECOMES THE FINAL DESTINATION

Play four even quarter notes. Hold the final target for two beats, name its role, and stop. Repeat with a two-note pickup before the cell without changing the final landing.

Cmaj7 -> R

Chord tones only; last note is the target.

```

Guitar Exercises - Section VII, Level 61

Module B - chromatic approach cells

12 TARGETS | 60 TONES

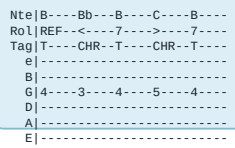

REFERENCE TARGET -> CHROMATIC BELOW -> TARGET -> CHROMATIC ABOVE -> TARGET

Every cell stays on one string. Play the target first, then compare both one-fret approaches. The approach notes receive less duration and volume than the target.

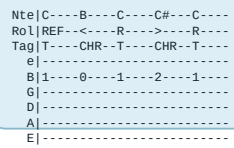

Cmaj7 -> 3

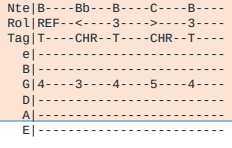

Cmaj7 -> 7

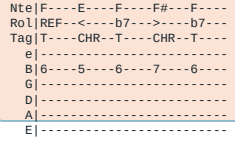

Cmaj7 -> R

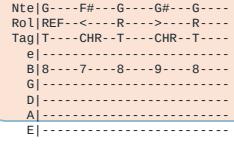

G7 -> 3

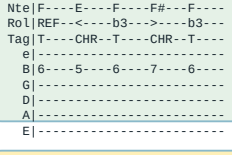

G7 -> b7

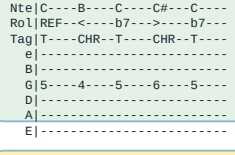

G7 -> R

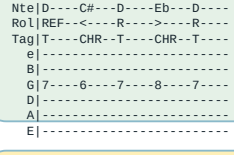

Dm7 -> b3

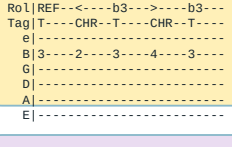

Dm7 -> b7

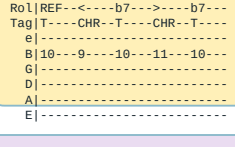

Dm7 -> R

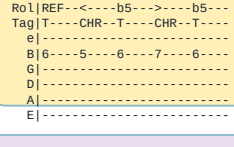

Bm7b5 -> b3

Bm7b5 -> b7

Bm7b5 -> b5

AUDIT Target volume and duration must exceed both approach notes. Do not accent the chromatic neighbor.

Guitar Exercises - Section VII, Level 61

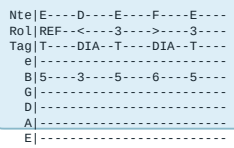

Module B - diatonic approach cells

12 TARGETS | 60 TONES

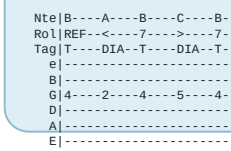

REFERENCE TARGET -> DIATONIC BELOW -> TARGET -> DIATONIC ABOVE -> TARGET

Use the parent-key collection: C major for Cmaj7, G7, and Dm7; A natural minor for Bm7b5. Compare the broader diatonic interval with the one-fret chromatic approach from the previous page.

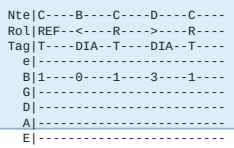

Cmaj7 -> 3

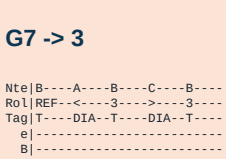

Cmaj7 -> 7

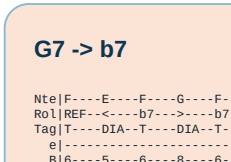

Cmaj7 -> R

G7 -> 3

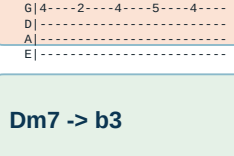

G7 -> b7

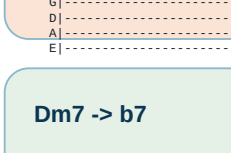

G7 -> R

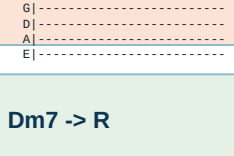

Dm7 -> b3

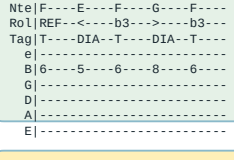

Dm7 -> b7

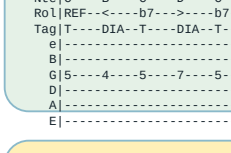

Dm7 -> R

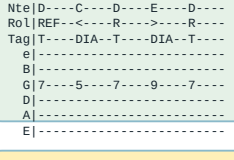

Bm7b5 -> b3

Bm7b5 -> b7

Bm7b5 -> b5

CHOICE Diatonic approaches sound more connected to the key; chromatic approaches create more directional pressure.

Guitar Exercises - Section VII, Level 61

Module C - three-note enclosure cells

Cmaj7 / G7 | 32 TONES

ENCLOSE THE TARGET FROM BOTH SIDES; REPEAT THE TARGET TO PROVE THE LANDING

The first two notes are motion. The third and fourth notes are the destination. Practice above-below and below-above orders separately before alternating them.

Cmaj7 3 - above-below

Two approach tones; target repeated.

```
Nte|F----Eb---E----E----

Guitar Exercises - Section VII, Level 61

Module D - delayed resolutions across beat 1

12 CELLS | 48 TONES

THE TENSION MAY LAND ON BEAT 1; THE TARGET MUST ARRIVE ON TIME

Play each four-note cell with the timing row below. Do not rush the target because beat 1 feels unstable. Once the timing is secure, sustain the first tension through the & of 1 and resolve on beat 2.

Cmaj7: 9 -> 3

```
Cnt|1----&----2----3----|

IMPROVISATION LADDER target only -> target plus approach -> enclosure -> delayed resolution -> free phrase with same target schedule

Guitar Exercises - Section VII, Level 61

Practice progression, error diagnosis, mastery gate, and log

NEXT: FULL-NECK ARPEGGIO CONNECTION

THE TARGET MUST REMAIN AUDIBLE AFTER THE APPROACH NOTE IS REMOVED

Ten-phase practice progression

- [ ] 1. Target rotations
- [ ] 2. Chromatic approaches
- [ ] 3. Diatonic approaches
- [ ] 4. Enclosures
- [ ] 5. Delayed resolutions
- [ ] 6. Major ii-V-I phrases
- [ ] 7. Minor iiø-V-i phrases
- [ ] 8. Five-zone phrases
- [ ] 9. Motif/recovery work
- [ ] 10. Model solos and capstones

Error diagnosis

TARGET HIDDEN
remove the approach; sustain target alone

LATE RESOLUTION
loop tension-target at half speed

APPROACH TOO LOUD
shorten and soften the non-chord note

BARLINE LOST
return to four quarter-note chord tones

ENCLOSURE RANDOM
name the target before notes 1-2

CHROMATIC SOUP
use only one approach event per target

Mastery gate before Level 62

- [ ] Complete all sixteen chord-tone target rotations and all twenty-four approach cells.
- [ ] Play all sixteen enclosure cells and twelve delayed resolutions without losing the subdivision.
- [ ] Perform six major and six minor progression phrases in their printed registers.
- [ ] Play all five C-major zone phrases and create one response in an adjacent zone.
- [ ] Transform the seed motif in six ways and use all twelve recovery cards without stopping the form.
- [ ] Perform both twelve-bar model solos and both sixteen-bar capstones on two separate days.

Practice log

Date	Module / key	Target	Approach type	D/U	BPM	Clean?	Next repair

NEXT Level 62 connects arpeggio fragments diagonally across the neck with string skipping, position shifts, and full-neck chord-tone motif development.
