Guitar Exercises - Section VII, Level 63

Crosspicking, hybrid picking, controlled sweep bursts, and arpeggio phrase endurance

10 MODULES | 1016 ATTACKS

Level 62 connected arpeggio fragments diagonally across the neck. Level 63 broadens the right-hand vocabulary while preserving the same harmonic clarity. Crosspicking keeps alternate strokes moving through multi-string rolls; hybrid picking separates pick and fingers; sweep bursts compress adjacent-string motion; endurance work tests whether tone, muting, and time survive repetition.

1. Cross the strings cleanly

Use a curved alternate-picking path. Every string change receives one independent attack and the previous string stops ringing.

2. Assign pick and fingers

The pick controls the lower voice; middle and ring fingers articulate upper voices without changing the phrase rhythm.

3. Sweep only in bursts

One motion crosses adjacent strings, but every note remains separate. Release each fret before the next string sounds.

B - direction cells	64
C - hybrid triads	64
D - hybrid seventh	64
E - 3-string sweeps	72
F - 4-string sweeps	64
G - system compare	224
H - progressions	144
I - endurance	128
J - capstones	128
TOTAL	1016

Session protocol

Choose one crosspicking cell, one hybrid cell, and one sweep burst. Stop before fatigue changes the attack. Rest at least as long as the work interval during endurance training. A faster phrase is not successful if notes overlap, skipped strings ring, or the chord identity disappears.

SAFETY RULE Sweep and hybrid practice uses minimum pick depth and relaxed finger extension. Stop for pain or persistent tension.

Guitar Exercises - Section VII, Level 63

Technique atlas, pick symbols, muting roles, and release timing

MECHANICS BEFORE SPEED

THE RIGHT-HAND SYSTEM CHANGES; THE NOTE DURATION AND CHORD IDENTITY DO NOT

System	Attack map	Best use	Primary failure
Crosspicking	D-U-D-U	repeating rolls and irregular string order	flat pick path catches a string
Hybrid	P + m + a	bass-plus-upper voices and wide skips	finger volume does not match pick
3-string sweep	D-D-D / U-U-U	short triad burst	notes ring together as a chord

Muting responsibilities

Fretting hand releases the completed string. Picking-hand palm or spare fingers silence lower strings. The active note should be the only sustained pitch unless a printed pedal tone is intentional.

Volume responsibilities

Reduce pick volume until m and a can match it comfortably. Do not solve a weak finger-plucked note by snapping the string or tensing the hand.

Sweep-release sequence

```
FRET -> ATTACK -> RELEASE -> NEXT STRING
        one pitch at a time
        no held mini-barre unless printed
```

Endurance boundary

Work intervals begin at 15 seconds. Rest for the same duration. Increase time only after tone and muting remain unchanged through the final repetition.

STOP CONDITION Pain, burning tension, uncontrolled string noise, or a collapsing pick grip ends the set immediately.

Module A - crosspicked triad rolls

4 CELLS | 32 ATTACKS

LOW-MIDDLE-HIGH-MIDDLE-LOW-MIDDLE-HIGH-MIDDLE

Use strict alternate picking. The pick follows a shallow curved path so both inside and outside string changes remain available. Stop each note when the next string sounds.

Module G - same chord through four picking systems

4 SHAPES | 112 ATTACKS

COMPARE THE SYSTEMS WITHOUT DECLARING ONE UNIVERSALLY SUPERIOR

Each chord receives an eight-note crosspick roll, an eight-note hybrid roll, a six-note down-sweep mirror, and a six-note reverse-sweep mirror. Keep tempo, tone, and chord shape constant.

Endurance protocol, system-switch cards, and fatigue repair

NO NEW NOTES | REUSE MODULES A-I

INCREASE DURATION ONLY AFTER THE ATTACK, MUTING, AND HARMONY REMAIN STABLE

Timed block ladder

Stage	Work	Rest	Standard
1	15 sec	15 sec	1 clean set
2	15 sec	15 sec	3 clean sets
3	30 sec	30 sec	2 clean sets
4	45 sec	45 sec	2 clean sets
5	60 sec	60 sec	same tone start to finish

System-switch cards

- [ ] Crosspick -> hybrid on repeat 2
- [ ] Hybrid -> sweep on repeat 2
- [ ] Sweep -> crosspick after full release
- [ ] Crosspick low register -> hybrid high register
- [ ] Hybrid question -> sweep answer
- [ ] Sweep burst -> crosspicked recovery

Fatigue diagnosis

PICK GRIP TIGHTENS	stop; reset thumb/index contact
FINGER PLUCKS SNAP	lower pick volume; reduce finger extension
SWEEP NOTES OVERLAP	shorten fret duration; one-way burst only
TEMPO WAVERS	return to one written circuit
MUTING DEGRADES	reduce work interval before tempo

Phrase-endurance ladder

1. One chord for 15 seconds. 2. Two-chord loop. 3. Four-chord circuit. 4. Four-bar progression. 5. Sixteen-bar capstone. Each stage keeps one full-beat rest or full hand release per four bars.

Recording audit

Record the first and final ten seconds of a timed set. Compare note length, pick noise, finger volume, skipped-string muting, tempo, and chord identity. If the end is worse, the current duration is above the usable endurance limit.

ADVANCE Add time before tempo. Add tempo only after the longest current block is clean on two days.

Guitar Exercises - Section VII, Level 63

Full-performance orchestration, recovery, and phrase-shape control

REUSE THE CAPSTONES | NO EXTRA WRITTEN TONES

THE PICKING SYSTEM SUPPORTS THE PHRASE; IT DOES NOT BECOME THE PHRASE

Four-pass orchestration

- [ ] 1. One system for the complete capstone.
- [ ] 2. Printed four-system rotation.
- [ ] 3. Choose systems by register: pick low, hybrid middle, sweep high.
- [ ] 4. Choose systems by phrase job: crosspick question, hybrid answer, sweep climax.

Dynamic and density arc

Bars 1-4: p and sparse. Bars 5-8: mp with one repeated roll. Bars 9-12: mf with wider register. Bars 13-15: f with one sweep climax. Bar 16: return to mp and release completely.

Recovery cards

- [ ] Crosspick catches string -> simplify to three-note roll
- [ ] Hybrid finger misses -> continue with pick-only target
- [ ] Sweep overlaps -> stop burst on highest clean note
- [ ] Pick cycle lost -> use next target as new downstroke
- [ ] Fatigue appears -> insert full-beat rest and reduce density

Phrase-construction limits

Use no more than two picking systems inside one four-bar phrase. Keep one recognizable arpeggio contour. Land on a chord tone at every harmonic change. Leave at least one full-beat rest per four bars.

Final recorded assignment

Record one major and one minor sixteen-bar performance. The first take follows the printed systems. The second chooses systems by musical function. Evaluate tone equality, note separation, muting, tempo, chord identity, dynamic shape, and recovery.

PASS The second performance must sound more musical, not merely more technically varied.

Guitar Exercises - Section VII, Level 63

Practice progression, mastery gate, completion audit, and log

NEXT: LONG-FORM ARPEGGIO SOLO CONSTRUCTION

ADVANCE WHEN THE SYSTEM CAN CHANGE WITHOUT THE HARMONY OR TIME CHANGING

Ten-phase practice progression

- [ ] 1. Crosspicked triad rolls
- [ ] 2. Direction and skip rolls
- [ ] 3. Hybrid triad rolls
- [ ] 4. Hybrid seventh patterns
- [ ] 5. Three-string sweep bursts
- [ ] 6. Four-string sweep bursts
- [ ] 7. Four-system comparisons
- [ ] 8. Major/minor cadence routes
- [ ] 9. Endurance circuits
- [ ] 10. Capstones and recording

Error diagnosis

CROSSPICK STALLS	isolate one inside/outside change
HYBRID IMBALANCE	reduce pick volume; shorten finger motion
SWEEP SOUNDS CHORDAL	release each fret before next string
SKIPPED STRING RINGS	mute with both hands; reduce pick depth
ENDURANCE COLLAPSES	shorten work interval; keep rest equal
SYSTEM SWITCH LATE	decide system before phrase begins

Mastery gate before Level 64

- [ ] Complete all crosspicking and hybrid cells with equal tone and both pick starts.
- [ ] Execute all three- and four-string sweep bursts without note overlap.
- [ ] Perform every four-system comparison at one stable tempo.
- [ ] Play all twelve major/minor progression routes with the assigned systems.
- [ ] Complete all four endurance circuits for 30 clean seconds with equal rest.
- [ ] Perform both sixteen-bar capstones without losing the key sequence.
- [ ] Record major and minor performances with intentional system choice and successful recovery.

Completion audit and practice log

- [ ] 8 crosspick rolls
- [ ] 8 direction cells
- [ ] 8 hybrid triads
- [ ] 8 hybrid seventh cells
- [ ] 12 triad sweeps
- [ ] 8 seventh sweeps
- [ ] 8 system comparisons
- [ ] 12 cadence routes

NEXT Level 64 develops long-form arpeggio solo construction, secondary dominants, key changes, and system-aware phrase orchestration.
