Guitar Exercises - Section VI, Level 52

Major and minor triads: root position, first inversion, and second inversion

G-B-e STRING SET | 976 ATTACKS + 42 SILENT LANDINGS

Level 51 established movable six- and five-string chord families. Level 52 compresses the harmony into three-note voicings on the top three strings. Every shape contains one root, one third, and one fifth; the bass voice determines the inversion, while the third determines major or minor quality.

1. Spell the triad

Major = 1-3-5. Minor = 1-b3-5. Name every string note and degree before increasing tempo.

2. Hear the inversion

Root position places 1 in the bass; first inversion places 3 or b3 in the bass; second inversion places 5 in the bass.

3. Move the nearest voice

Switch quality by moving only the third. Connect progressions with the closest available inversion rather than sliding one shape blindly.

Triad formulas on strings G-B-e

```
MAJOR ROOT       1-3-5     shape: r,   r,   r-2
MAJOR 1ST INV    3-5-1     shape: r,   r-1, r-1
MAJOR 2ND INV    5-1-3     shape: r,   r+1, r

MINOR ROOT       1-b3-5    shape: r,   r-1, r-2
MINOR 1ST INV    b3-5-1    shape: r,   r,   r
MINOR 2ND INV    5-1-b3    shape: r,   r+1, r-1

QUALITY STRING   root position: B string   | 1st inversion: G string
                 2nd inversion: high e string
```

Written workload

Module	Attacks
B - major families	210
C - minor families	210
D - inversion cycles	84
E - quality switches	168
F - rhythm patterns	48
G - major progressions	64
H - minor progressions	64
I - capstones	128
TOTAL	976

Session protocol

Choose one natural root, one inversion drill, and one progression. Form each shape silently before the first attack. Use only strings G, B, and high e; mute D and lower strings. Release pressure fully before moving to another inversion.

SILENT WORK Seven roots x two qualities x three inversions = 42 look-name-form-release landings.

Guitar Exercises - Section VI, Level 52

Triad reference atlas: roles, shape formulas, and top-string note map

ROOT / THIRD / FIFTH | G-B-e ONLY

THE BASS NOTE NAMES THE INVERSION; THE THIRD NAMES THE QUALITY

Inversion	Major order	Minor order	Bass voice	Quality note moves on
Root position	1-3-5	1-b3-5	root	B string
First inversion	3-5-1	b3-5-1	third	G string

G-B-e note map, frets 0-12

String	0	1	2	3	4	5	6	7	8	9	10	11	12
G	G	Ab	A	Bb	B	C	C#	D	Eb	E	F	F#	G
B	B	C	C#	D	Eb	E	F	F#	G	Ab	A	Bb	B
e	E	F	F#	G	Ab	A	Bb	B	C	C#	D	Eb	E

Root-position quality switch

Keep G and high e fixed. Move the B-string third down one fret to convert major into minor.

```
MAJ  1-3-5
MIN  1-b3-5
```

First-inversion switch

Keep B and high e fixed. Move the G-string third down one fret.

```
MAJ  3-5-1
MIN  b3-5-1
```

Second-inversion switch

Keep G and B fixed. Move the high-e third down one fret.

```
MAJ  5-1-3
MIN  5-1-b3
```

ATTACK ZONE Pick or strum only G-B-e. Lightly mute D with the fretting index or picking-hand thumb edge.

Guitar Exercises - Section VI, Level 52

C major and C minor triads on G-B-e

C MAJOR / C MINOR | 60 ATTACKS

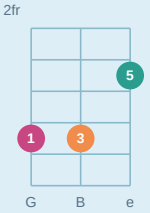

THREE INVERSIONS PER QUALITY; EACH CARD = FOUR BLOCK ATTACKS + SIX-NOTE ARPEGGIO

C major spelling: C-E-G. C minor spelling: C-Eb-G. Name the bass voice and the quality-defining third before playing each card.

Root position

QUALITY AUDIT	The bass inversion stays the same. If the chord sounds like a different inversion, a common voice moved or stopped sounding.
PRESSURE	Use the smallest pressure change that cleans the moving string. Do not clamp harder to hold the stationary notes.

Guitar Exercises - Section VI, Level 52

Module F - blocked, arpeggiated, release, and voice-emphasis patterns

6 CELLS | 48 ATTACKS

APPLY THE RHYTHM TO ONE CLEAN TRIAD BEFORE MOVING THE SHAPE

Each cell contains eight attacks. Use the printed representative chord first, then apply the same pattern to one major and one minor triad in every inversion.

F1. Blocked quarter notes

C major root position

```
Chord attacks: 1 2 3 4 | 1 2 3 4
```

Keep all unused strings silent. In release patterns, maintain finger contact while removing pressure.

8 attacks

F2. Low-high scan

A minor first inversion

```
G-B-e-e-B-G | G-B
```

Keep all unused strings silent. In release patterns, maintain finger contact while removing pressure.

8 attacks

F3. High-low scan

E major second inversion

```
e-B-G-G-B-e | e-B
```

Keep all unused strings silent. In release patterns, maintain finger contact while removing pressure.

8 attacks

F4. Outer-inner pattern

G major first inversion

```
G-e-B-e | G-e-B-e
```

Keep all unused strings silent. In release patterns, maintain finger contact while removing pressure.

8 attacks

F5. Chord + arpeggio

D minor root position

```
BLOCK | G-B-e | BLOCK | e-B-G
```

Keep all unused strings silent. In release patterns, maintain finger contact while removing pressure.

8 attacks

F6. Release backbeats

F major second inversion

```
CHORD mute CHORD mute | CHORD mute CHORD mute
```

Keep all unused strings silent. In release patterns, maintain finger contact while removing pressure.

8 attacks

TOP-VOICE TEST	Repeat F2-F5 while accenting only high e. The top note should sound melodic without changing the chord shape.
BASS-VOICE TEST	Repeat while accenting only G. Name whether the bass is root, third, or fifth.

Guitar Exercises - Section VI, Level 52

Module G - nearest-inversion I-IV-V-I major progressions

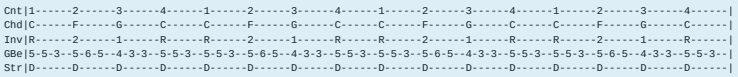

4 PROGRESSIONS | 64 ATTACKS

ONE CHORD PER BEAT; FOUR-CHORD CELL REPEATED FOUR TIMES

The printed inversions minimize movement on G-B-e. Form the next triad from the nearest voice rather than returning to root position for every chord.

C-F-G-C

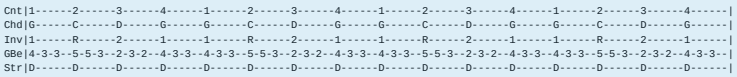

```
Chd|C | F | G | C |
Inv|R | 2 | 1 | R |
GBe|5-5-3 | 5-6-5 | 4-3-3 | 5-5-3 |
```

16 attacks

Guitar Exercises - Section VI, Level 52

Module H - nearest-inversion i-iv-V-i minor progressions

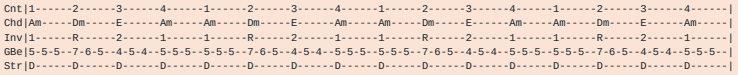

4 PROGRESSIONS | 64 ATTACKS

THE V CHORD IS MAJOR; ITS THIRD CREATES THE MINOR-KEY DOMINANT PULL

Use minor triads for i and iv, and a major triad for V. This prepares the harmonic function needed later for harmonic minor without introducing another scale shape yet.

Am-Dm-E-Am

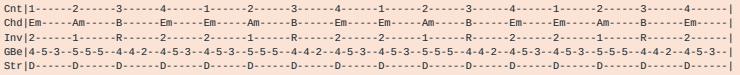

```
Chd|Am | Dm | E | Am |
Inv|1 | R | 2 | 1 |
GBe|5-5-5 | 7-6-5 | 4-5-4 | 5-5-5 |
```

16 attacks

Em-Am-B-Em

Inv|1 | R | 2 | 1 |
GBe|3-3-3 | 5-4-3 | 2-3-2 | 3-3-3 |
```

16 attacks

Guitar Exercises - Section VI, Level 52

Module I - sixteen-bar major triad capstone

64 QUARTER-NOTE ATTACKS

FOUR KEYS; NEAREST INVERSIONS; NO BARRE-CHORD PRESSURE

Play four blocked quarter-note triads per bar. Each four-bar block uses I-IV-V-I in a different key. Keep D, A, and lower E strings muted throughout.

Bars	Chords	Inversions	G-B-e shapes
1-4	C | F | G | C	R | 2 | 1 | R	5-5-3 | 5-6-5 | 4-3-3 | 5-5-3
5-8	G | C | D | G	1 | R | 2 | 1	4-3-3 | 5-5-3 | 2-3-2 | 4-3-3
9-12	D | G | A | D	R | 2 | 1 | R	7-7-5 | 7-8-7 | 6-5-5 | 7-7-5
13-16	A | D | E | A	1 | R | 2 | 1	6-5-5 | 7-7-5 | 4-5-4 | 6-5-5

Four performance passes

1. Sustained quarters. 2. Clipped beat-4 release. 3. Low-to-high arpeggio once per bar. 4. Accent the high-e melody while the lower voices remain even.

Voice-leading audit

Write the G-, B-, and e-string fret path separately. The individual voices should move smoothly even when the chord root changes by a fourth or fifth.

Capstone grid

```
Cnt|1------2------3------4------1------2------3------4------1------2------3------4------1------2------3------4------|
Chd|C------F------G------C------G------C------D------G------D------G------A------D------A------D------E------A------|
Inv|R------2------1------R------1------R------2------1------R------2------1------R------1------R------2------1------|
GBe|5-5-3--5-6-5--4-3-3--5-5-3--4-3-3--5-5-3--2-3-2--4-3-3--7-7-5--7-8-7--6-5-5--7-7-5--6-5-5--7-7-5--4-5-4--6-5-5--|
Str|D------D------D------D------D------D------D------D------D------D------D------D------D------D------D------D------|
```

REST Relax the hand for one full minute before the minor capstone.

Guitar Exercises - Section VI, Level 52

Module I - sixteen-bar minor triad capstone

64 QUARTER-NOTE ATTACKS

i-iv-V-i IN FOUR MINOR KEYS; HEAR THE MAJOR V CHORD

The major V triad supplies the leading-tone pull that natural minor alone does not provide. Keep the transition economical and listen for the quality change before adding rhythm variation.

Bars	Chords	Inversions	G-B-e shapes
1-4	Am | Dm | E | Am	1 | R | 2 | 1	5-5-5 | 7-6-5 | 4-5-4 | 5-5-5
5-8	Em | Am | B | Em	2 | 1 | R | 2	4-5-3 | 5-5-5 | 4-4-2 | 4-5-3
9-12	Dm | Gm | A | Dm	R | 2 | 1 | R	7-6-5 | 7-8-6 | 6-5-5 | 7-6-5
13-16	Gm | Cm | D | Gm	1 | R | 2 | 1	3-3-3 | 5-4-3 | 2-3-2 | 3-3-3

Four performance passes

1. Sustained quarters. 2. Pressure-release backbeats. 3. High-to-low arpeggio once per bar. 4. Hold the top voice while clipping the two lower voices.

Dominant-quality audit

On every V chord, identify its major third. If the V sounds minor, stop and isolate the quality note before replaying the progression.

Capstone grid

```
Cnt|1------2------3------4------1------2------3------4------1------2------3------4------1------2------3------4------|
Chd|Am-----Dm-----E------Am-----Em-----Am-----B------Em-----Dm-----Gm-----A------Dm-----Gm-----Cm-----D------Gm-----|
Inv|1------R------2------1------2------1------R------2------R------2------1------R------1------R------2------1------|
GBe|5-5-5--7-6-5--4-5-4--5-5-5--4-5-3--5-5-5--4-4-2--4-5-3--7-6-5--7-8-6--6-5-5--7-6-5--3-3-3--5-4-3--2-3-2--3-3-3--|
Str|D------D------D------D------D------D------D------D------D------D------D------D------D------D------D------D------|
```

SAFETY Short triads reduce pressure, but tension can still accumulate. Release fully during every rest.

Guitar Exercises - Section VI, Level 52

Module J - inversion hearing, degree identification, and random-root recovery

42 SILENT PROMPTS + EAR TASKS

NAME THE THREE DEGREES BEFORE USING THE SHAPE AS A CHORD

Inversion-recognition cards

`1-3-5`	major root position
`3-5-1`	major first inversion
`5-1-3`	major second inversion
`1-b3-5`	minor root position
`b3-5-1`	minor first inversion
`5-1-b3`	minor second inversion

Six random-root commands

1. Find a named root-position major triad.
2. Move to first inversion without changing quality.
3. Move to second inversion and name the bass voice.
4. Convert major to minor by moving one string.
5. Arpeggiate G-B-e-e-B-G and sing the degrees.
6. Find the nearest inversion of the next I-IV-V chord.

Ear-training passes

- [ ] A. Play major then minor at the same inversion; identify the moving third by ear.
- [ ] B. Play all three inversions of one chord in random order; name the bass role.
- [ ] C. Sing root-third-fifth, then play the matching blocked triad.
- [ ] D. Sustain one common note while moving the other two voices through I-IV-V-I.
- [ ] E. Record a progression and identify which string carries the melody.

Silent-formation audit

Draw a random natural root, quality, and inversion. State the spelling and G-B-e degree order; look at the destination; form the triad silently; release; then verify with one blocked attack. Complete all 42 combinations over multiple sessions.

PASS At least 18 of 21 shapes per quality are formed correctly on the first attempt.

Guitar Exercises - Section VI, Level 52

Practice progression, error repair, mastery gate, and log

NEXT: TRIADS ACROSS FOUR STRING SETS

ADVANCE WHEN EVERY VOICE HAS A NAME, NOT WHEN THE SHAPE IS ONLY MEMORIZED

Ten-phase practice progression

1. Triad spelling and inversion orders
2. C and G open-position references
3. Seven major triad families
4. Seven minor triad families
5. Neck-order inversion cycles
6. Three quality-switch pages
7. Block and arpeggio patterns
8. Major nearest-inversion progressions
9. Minor i-iv-V-i progressions
10. Major and minor capstones

Error diagnosis

WRONG INVERSION	name the bass degree before attacking
WRONG QUALITY	isolate the third and move only its string
MISSING STRING	scan G, B, e individually at low volume
LOW-STRING LEAK	mute D with index or picking-hand edge
SOUNDING SHIFT	release before moving to another inversion
BIG PROGRESSION JUMP	choose the closer inversion, not root position
TENSION	use less pressure and shorter practice blocks

Mastery gate before Level 53

Spell and play major and minor triads for C, D, E, F, G, A, and B; identify root position, first inversion, and second inversion from the bass voice; complete all 42 shape workouts with clear G-B-e attacks; switch quality at all three inversion families by moving one voice; perform the major and minor nearest-inversion progressions; complete both sixteen-bar capstones on two separate days; and pass the random-root silent-formation audit without pain or persistent tension.

Completion audit and practice log

- ☐ 42 silent landings
- ☐ 21 major shapes
- ☐ 21 minor shapes
- ☐ 14 inversion cycles
- ☐ 21 quality pairs
- ☐ 6 patterns
- ☐ 4 major progressions
- ☐ 4 minor progressions
- ☐ 2 capstones
- ☐ ear audit

Date	Root / quality	Inversion	D/U	BPM	Clean?	Weak voice / move	Next target

NEXT Level 53 maps the same major and minor triads across string sets 1-2-3, 2-3-4, 3-4-5, and 4-5-6.
