Guitar Exercises - Section VI, Level 56

Natural-minor harmony, minor-key progressions, and raised-seventh dominant preparation

6 KEYS | 11 MODULES | 936 ATTACKS

Level 55 harmonized the major scale. Level 56 reorders the same relative-key pitch collections around a minor tonic, establishes the natural-minor chord family, compares the modal minor v with the stronger major V, and prepares the leading tone that will make harmonic minor musically meaningful.

1. Re-center the harmony

The same notes as the relative major now organize around i, iv, and the minor tonic.

2. Hear weak versus strong dominant

Natural minor gives a minor v and major VII. Raising b7 creates V, V7, and leading-tone vii°.

3. Transpose by Roman numeral

Keep the minor-key pattern fixed while the key signature, chord names, and raised seventh change.

Natural-minor harmonization formula

```
Scale degree:  1    2    b3   4    5    b6   b7
Roman numeral: i    ii°  III  iv   v    VI   VII
Triad quality:  min  dim  MAJ  min  min  MAJ  MAJ
Function:       T    P    T    P    wD   P/T  wD

Natural-minor steps: W-H-W-W-H-W-W
Relative-major relation: natural minor begins on degree 6 of its relative major.
Raised seventh: b7 -> 7 changes v into V or V7 and changes VII into leading-tone vii°.
```

Written workload

Module	Work
A - spelling	42 silent
B - six ladders	168
C-H - six families	576
I - voice leading	96
J - analysis	24 written
K - circle capstone	96
TOTAL	936

Session protocol

Choose one minor key, one progression family, and one raised-seventh comparison. Name the natural scale, natural v, strong V, and function path before playing. Begin with triads; add full or partial rhythm voicings only after the harmonic spelling is secure.

CASE RULE i, ii°, and iv are lowercase; III, VI, and VII are uppercase; raised dominant V is uppercase.

Guitar Exercises - Section VI, Level 56

Module A - natural-minor spelling, function families, and the raised seventh

42 SILENT SPELLINGS | 6 PRACTICE KEYS

NATURAL MINOR HAS NO LEADING TONE; THE RAISED SEVENTH IS A CONTROLLED HARMONIC ALTERATION

Natural-minor function families

Family	Degrees	Job
Tonic	i, III, VI	minor home, relative-major color, stable expansion
Predominant	ii°, iv, VI	moves away from tonic and prepares dominant
Weak dominant	v, VII	modal pull without a leading tone
Strong dominant	V, V7, vii°	raised 7 creates semitone pull into i

Quality and alteration sequence

```
Natural: i--ii°--III--iv--v--VI--VII
Quality: m---dim--M----m---m--M---M

Raise b7 to 7:
v minor  -> V major or V7
VII major -> vii° leading-tone triad
```

The raised seventh is not part of the natural-minor scale. It is introduced because the dominant function needs a leading tone.

Six-key minor route used in this level: D -> A -> E -> B -> F# -> C#

Minor key	Signature	Natural scale	Relative major	Raised 7
D	1 flat: Bb	D E F G A Bb C	F major	C#
A	no sharps or flats	A B C D E F G	C major	G#
E	1 sharp: F#	E F# G A B C D	G major	D#
B	2 sharps: F#, C#	B C# D E F# G A	D major	A#
F#	3 sharps: F#, C#, G#	F# G# A B C# D E	A major	E#
C#	4 sharps: F#, C#, G#, D#	C# D# E F# G# A B	E major	B#

Relative-major recall

```
A minor <-> C major
E minor <-> G major
B minor <-> D major
F# minor <-> A major
C# minor <-> E major
D minor <-> F major
```

Silent spelling command

For every key: say seven natural-minor notes, seven natural triads, natural v, raised-seventh V or V7, and leading-tone vii°. Six keys x seven natural degrees = 42 core prompts.

Guitar Exercises - Section VI, Level 56

Module B - harmonized a minor triad family

A MINOR | 7 NATURAL TRIADS | 28 ATTACKS

NATURAL MINOR: STACK ALTERNATE SCALE TONES; THE FIFTH-DEGREE CHORD IS MINOR

Scale notes: A B C D E F G. Quality sequence: minor-diminished-major-minor-minor-major-major. Use the printed D-G-B triad set for the ladder. The raised seventh G# is introduced separately to create E and E7.

Deg	Note	Roman	Chord	Quality	Spelling	Function
1	A	i	Am	minor	A-C-E	tonic
2	B	ii°	Bdim	diminished	B-D-F	predominant
b3	C	III	C	major	C-E-G	tonic color / relative major
4	D	iv	Dm	minor	D-F-A	predominant
5	E	v	Em	minor	E-G-B	weak dominant / modal v
b6	F	VI	F	major	F-A-C	predominant / tonic color
b7	G	VII	G	major	G-B-D	subtonic / weak dominant

Nearest natural-minor triad ladder

```
Rom|   i    |  ii°   |  III   |   iv   |   v    |   VI   |  VII   |
Chd|   Am   |  Bdim  |   C    |   Dm   |   Em   |   F    |   G    |
Inv|  2nd   |  2nd   |  1st   |  1st   |  root  |  root  |  2nd   |
Frt| 2-2-1  | 3-4-3  | 2-0-1  | 3-2-3  | 2-0-0  | 3-2-1  | 0-0-0  |
```

Key facts

Signature: no sharps or flats. Relative major: C major. Printed triad set: D-G-B.

Dominant conversion: natural v versus raised-seventh V

```
b7 -> 7: G -> G#
natural v: Em     E-G-B         | strong V: E      E-G#-B        | V7: E7      E-G#-B-D
natural VII: G      G-B-D         | leading vii°: G#dim   G#-B-D
```

FOUR-ATTACK CELL Blocked triad on beat 1, then low-middle-high arpeggio. Seven natural chords = 28 attacks.

Guitar Exercises - Section VI, Level 56

Module B - harmonized e minor triad family

E MINOR | 7 NATURAL TRIADS | 28 ATTACKS

NATURAL MINOR: STACK ALTERNATE SCALE TONES; THE FIFTH-DEGREE CHORD IS MINOR

Scale notes: E F# G A B C D. Quality sequence: minor-diminished-major-minor-minor-major-major. Use the printed E-A-D triad set for the ladder. The raised seventh D# is introduced separately to create B and B7.

Deg	Note	Roman	Chord	Quality	Spelling	Function
1	E	i	Em	minor	E-G-B	tonic
2	F#	ii°	F#dim	diminished	F#-A-C	predominant
b3	G	III	G	major	G-B-D	tonic color / relative major
4	A	iv	Am	minor	A-C-E	predominant
5	B	v	Bm	minor	B-D-F#	weak dominant / modal v
b6	C	VI	C	major	C-E-G	predominant / tonic color
b7	D	VII	D	major	D-F#-A	subtonic / weak dominant

Nearest natural-minor triad ladder

```
Rom|   i    |  ii°   |  III   |   iv   |   v    |   VI   |  VII   |

Chd	C#m	B	A	G#	
Func	T	wD	P/T	D	

Voicings: C#m barre | B barre | open A | G# or G#7

4 downstrokes per bar; name natural or raised dominant before bar 3 or 4.

SECOND PASS Compare the strong-V pass with the same progression using natural v. Name the raised seventh before playing.

EAR PASS Say the function path while playing: T-wD-P-D.

Guitar Exercises - Section VI, Level 56

Module G - i-iv-VI-V in six keys

EXPANDING MINOR CADENCE | 96 ATTACKS

ONE BAR PER CHORD: FOUR QUARTER-NOTE ATTACKS; KEEP THE ROMAN-NUMERAL PATTERN FIXED

Expanding predominant motion into the strong dominant. Play the six key cells in circle order D-A-E-B-F#-C#. First use the suggested rhythm voicings. Then replace each chord with a nearest triad or partial

D minor - 16 attacks

Rom	i	iv	VI	V
Chd	Dm	Gm	Bb	A

Key: ____ Num: _____ Func: ____

11. Edim-A-Dm-Dm
Key: ____ Num: _____ Func: ____

12. C#dim-F#-Bm-Bm
Key: ____ Num: _____ Func: ____

B. Transpose twelve commands

1. Move i-iv-V-i from A minor to E minor
Answer: _____

2. Move i-VI-III-VII from E minor to B minor
Answer: _____

3. Move i-VII-VI-V from D minor to A minor
Answer: _____

4. Move i-iv-VI-V from B minor to F# minor
Answer: _____

5. Move ii°-V-i-i from A minor to D minor
Answer: _____

6. Move i-iv-v-i from E minor to B minor
Answer: _____

7. Move i-iv-V-i from D minor to A minor
Answer: _____

8. Move i-VI-III-VII from A minor to E minor
Answer: _____

9. Move i-VII-VI-V from B minor to F# minor
Answer: _____

10. Move i-iv-VI-V from F# minor to C# minor
Answer: _____

11. Move ii°-V-i-i from E minor to B minor
Answer: _____

12. Move i-iv-V-i from C# minor to D minor
Answer: _____

Guitar Exercises - Section VI, Level 56

Module K - 24-bar circle-of-fifths minor-key capstone

24 BARS | D-A-E-B-F#-C# | 96 ATTACKS

PLAY i-iv-V-i IN SIX ADJACENT MINOR KEYS WITHOUT STOPPING THE CLOCK

Each key occupies four bars. Play four quarter-note attacks per bar and announce the next minor key during beat 4 of the final tonic. The progression always uses the raised-seventh major V, so every key contains a functional dominant return.

Bars 1-4: D minor

```
 Rom|   i    |   iv   |   V    |   i    |
 Chd|   Dm   |   Gm   |   A    |   Dm   |
Func|   T    |   P    |   D    |   T    |
```

Voicings: open Dm | Gm barre | open A / A7 | open Dm

Raised 7: C#. 16 attacks.

Bars 5-8: A minor

```
 Rom|   i    |   iv   |   V    |   i    |
 Chd|   Am   |   Dm   |   E    |   Am   |
Func|   T    |   P    |   D    |   T    |
```

Voicings: open Am | open Dm | open E / E7 | open Am

Raised 7: G#. 16 attacks.

Bars 9-12: E minor

```
 Rom|   i    |   iv   |   V    |   i    |
 Chd|   Em   |   Am   |   B    |   Em   |
Func|   T    |   P    |   D    |   T    |
```

Voicings: open Em | open Am | B or B7 | open Em

Raised 7: D#. 16 attacks.

Bars 13-16: B minor

```
 Rom|   i    |   iv   |   V    |   i    |
 Chd|   Bm   |   Em   |   F#   |   Bm   |
Func|   T    |   P    |   D    |   T    |
```

Voicings: Bm barre | open Em | F# or F#7 | Bm barre

Raised 7: A#. 16 attacks.

Bars 17-20: F# minor

```
 Rom|   i    |   iv   |   V    |   i    |
 Chd|  F#m   |   Bm   |   C#   |  F#m   |
Func|   T    |   P    |   D    |   T    |
```

Voicings: F#m barre | Bm barre | C# or C#7 | F#m barre

Raised 7: E#. 16 attacks.

Bars 21-24: C# minor

```
 Rom|   i    |   iv   |   V    |   i    |
 Chd|  C#m   |  F#m   |   G#   |  C#m   |
Func|   T    |   P    |   D    |   T    |
```

Voicings: C#m barre | F#m barre | G# or G#7 | C#m barre

Raised 7: B#. 16 attacks.

PASS 2	Replace V with V7 and listen for the added flat seventh increasing the dominant pull.
PASS 3	Play the nearest-inversion triad route and announce the next key during beat 4.

Guitar Exercises - Section VI, Level 56

THEORY -> NATURAL FAMILY -> DOMINANT ALTERATION -> TRANSPOSITION

Practice progression, error diagnosis, and natural-v versus strong-V ear training

REPAIR THE FIRST LAYER THAT FAILS

Ten-phase practice progression

1. Say W-H-W-W-H-W-W.
2. Recite i-ii°-III-iv-v-VI-VII.
3. Spell A and E natural-minor families.
4. Add B, F#, C#, and D minor.
5. Play every natural-minor triad ladder.
6. Compare natural v with raised V in every key.
7. Learn all six progression families.
8. Play the nearest-inversion i-iv-V-i cells.
9. Complete the analysis and transposition page.
10. Perform the 24-bar minor-key capstone.

Error diagnosis

WRONG QUALITY	recite m-dim-M-m-m-M-M
RELATIVE-MAJOR DRIFT	return to i and sing the minor third
v / V CONFUSION	name b7 or raised 7 before forming the chord
THEORETICAL SPELLING	write E# or B# when the key requires it
FUNCTION BLUR	compare i-iv-v-i with i-iv-V-i
TRANSPOSE ERROR	keep numerals fixed and rebuild from the new tonic
CAPSTONE STOP	loop the old i bar and the next key's i bar

Natural-v versus strong-V ear loop

Play i for four beats, iv for four beats, natural v for four beats, and i. Repeat with major V, then V7. Sing the seventh degree before each dominant chord. The raised version should create a clearer half-step return into the tonic.

Pass	Progression	Task
1	i-iv-v-i	hear modal, softer dominant pull
2	i-iv-V-i	hear raised 7 create stronger return
3	i-iv-V7-i	hear V7 add another active tendency tone
4	random key	identify natural v or strong V before chord name

Advancement rule

Add a key only after its natural triads, raised seventh, strong V, and leading-tone diminished chord can be spelled without reference. Raise tempo after three clean cells; reduce to blocked triads when function becomes unclear.

Guitar Exercises - Section VI, Level 56

Mastery gate, completion audit, and practice log

NEXT: SEVENTH CHORDS, SHELL VOICINGS, AND FUNCTIONAL VOICE LEADING

ADVANCE AFTER NATURAL MINOR AND RAISED-SEVENTH DOMINANT FUNCTION ARE BOTH CLEAR

Mastery gate before Level 57

- [ ] Spell A, E, B, F#, C#, and D natural-minor scales and all 42 natural triads.
- [ ] Recite i-ii°-III-iv-v-VI-VII with the correct qualities and weak/strong function labels.
- [ ] Name the raised seventh, major V, V7, and leading-tone vii° in every practice key.
- [ ] Play all six harmonized triad ladders and all 36 printed progression cells.
- [ ] Perform all six nearest-inversion i-iv-V-i voice-leading cells and audit each voice.
- [ ] Analyze the twelve printed progressions and complete all twelve transposition commands.
- [ ] Perform the 24-bar D-A-E-B-F#-C# capstone without stopping between keys.
- [ ] Meet the standard on two separate days: one natural-v pass and one strong-V/V7 pass.

Completion audit

- [ ] 42 silent spellings
- [ ] 6 triad ladders
- [ ] 36 progression cells
- [ ] 6 voice-leading cells
- [ ] 12 analysis prompts
- [ ] 12 transpositions
- [ ] 24-bar capstone
- [ ] v/V ear loop

Practice log

Date	Key / module	Progression	v or V?	BPM	Clean?	Weak degree / function	Next key
