Scale Exercises - Section V, Level 41

A minor pentatonic five-position map and connection

NEW PITCH SET - SAME TONIC: A

1. Hear the new pitch set

A minor pentatonic is A-C-D-E-G: degrees 1-b3-4-5-b7. This is the parallel minor of A, not the relative minor from Levels 39-40.

2. Learn five positions

Begin with the standard root frame at fret 5. Keep A as tonic while the starting degree and fretboard geometry change in every frame.

3. Connect the seams

Adjacent boxes share one anchor note on every string. Shift after that anchor sounds, then link all five frames into forward and reverse zigzags.

Parallel comparison - same A tonic, different five-note collection

```
A major pentatonic:  A  B  C# E  F#     degrees 1  2  3  5  6
A minor pentatonic:  A  C  D  E  G      degrees 1 b3  4  5 b7
Common tones: A and E.  The minor set adds C, D, and G.
```

ONE-OCTAVE GEOMETRY COMPARISON

Five-position route

```
P1  frets 5-8   starts 1    roots E5, D7, e5
P2  frets 7-10  starts b3   roots D7, B10
P3  frets 9-13  starts 4    roots A12, B10
P4  frets 12-15 starts 5    roots A12, G14
P5  frets 14-17 starts b7   roots E17, G14, e17
```

CORE WORKOUT 5 position cells + 4 seam cells + linked zigzag = 360 notes

Session protocol

1. Compare A major and A minor once.
2. Map P1 and locate every A root.
3. Add one new position at a time.
4. Play every 24-note cell both ways.
5. Learn one shared-anchor seam.
6. Connect the forward and reverse zigzags.
7. Accent A roots, then remove the accents.

Level 41 - Fixed-Key A Minor-Pentatonic Atlas

A C D E G | 1 b3 4 5 b7

Roots are highlighted. Adjacent positions overlap because neighboring frames share one note on every string.

At every seam, remain in the lower frame through the shared note. Shift only after it sounds. A remains tonic even when a position begins on b3, 4, 5, or b7.

Level 41 - Position 1: Root Frame

frets 5-8. Starts on scale degree 1. Roots: E5, D7, e5.

A MINOR PENTATONIC

Position 1 vertical cell - 12 notes up + 12 notes down

The highest note is articulated once at the end of the ascent and again to begin the descent.

Roots

E5, D7, e5

Hand note

Low-E root at fret 5. This is the reference box for the parallel-minor branch.

Pass 1 - map the frame

Play eighth notes. Say every degree aloud. Stop after the cell, relax the hand, and verify every A root before repeating.

Pass 2 - root targeting

Accent only degree 1, then remove the accent. On a second pass, sustain each A root slightly while keeping the pulse unchanged.

Pass 3 - prepare the seam

Begin descending first, repeat with both pick starts, then practice the shared-anchor seam into the next position.

Level 41 - Position 2: Flat-Third Frame

A MINOR PENTATONIC

frets 7-10. Starts on scale degree b3. Roots: D7, B10.

Position 2 vertical cell - 12 notes up + 12 notes down

The highest note is articulated once at the end of the ascent and again to begin the descent.

Hand note

Re-form around frets 7-10. The outer strings begin one fret above the frame base.

Pass 1 - map the frame

Play eighth notes. Say every degree aloud. Stop after the cell, relax the hand, and verify every A root before repeating.

Pass 2 - root targeting

Accent only degree 1, then remove the accent. On a second pass, sustain each A root slightly while keeping the pulse unchanged.

Pass 3 - prepare the seam

Begin descending first, repeat with both pick starts, then practice the shared-anchor seam into the next position.

Level 41 - Position 3: Fourth-Degree Frame

A MINOR PENTATONIC

frets 9-13. Starts on scale degree 4. Roots: A12, B10.

Position 3 vertical cell - 12 notes up + 12 notes down

The highest note is articulated once at the end of the ascent and again to begin the descent.

Roots

A12, B10

Hand note

Build the frame around frets 10-13 and release for the G-string backreach to fret 9.

Pass 1 - map the frame

Play eighth notes. Say every degree aloud. Stop after the cell, relax the hand, and verify every A root before repeating.

Pass 2 - root targeting

Accent only degree 1, then remove the accent. On a second pass, sustain each A root slightly while keeping the pulse unchanged.

Pass 3 - prepare the seam

Begin descending first, repeat with both pick starts, then practice the shared-anchor seam into the next position.

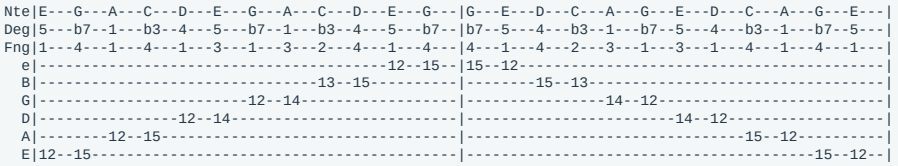
Level 41 - Position 4: Fifth-Degree Frame

A MINOR PENTATONIC

frets 12-15. Starts on scale degree 5. Roots: A12, G14.

Position 4 vertical cell - 12 notes up + 12 notes down

The highest note is articulated once at the end of the ascent and again to begin the descent.



PICKING 24 notes is even. Every new cell begins with the original D-start or U-start orientation.

Position DNA

Roots

A12, G14

Hand note

A roots sit on A12 and G14. Use those anchors to keep the minor tonic audible.

Pass 1 - map the frame

Play eighth notes. Say every degree aloud. Stop after the cell, relax the hand, and verify every A root before repeating.

Pass 2 - root targeting

Accent only degree 1, then remove the accent. On a second pass, sustain each A root slightly while keeping the pulse unchanged.

Pass 3 - prepare the seam

Begin descending first, repeat with both pick starts, then practice the shared-anchor seam into the next position.

Level 41 - Position 5: Flat-Seventh Frame

A MINOR PENTATONIC

frets 14-17. Starts on scale degree b7. Roots: E17, G14, e17.

Position 5 vertical cell - 12 notes up + 12 notes down

The highest note is articulated once at the end of the ascent and again to begin the descent.

Hand note

This frame closes the octave at low- and high-e fret 17 and prepares the return route.

Pass 1 - map the frame

Play eighth notes. Say every degree aloud. Stop after the cell, relax the hand, and verify every A root before repeating.

Pass 2 - root targeting

Accent only degree 1, then remove the accent. On a second pass, sustain each A root slightly while keeping the pulse unchanged.

Pass 3 - prepare the return

Begin descending first, repeat with both pick starts, then prepare the reverse route back into Position 4.

Level 41 - Shared-Anchor Seams I

SHIFT AFTER THE ANCHOR - NOT BEFORE

  A|--------------------------------12--10----------|
  E|-----------------------------------------12--10--|
```

Starts degree 5; ends degree 4.

P2 ASC - frets 7-10

Twelve notes. Keep the pick cycle moving through every string.

```
Deg|b3--4---5---b7--1---b3--4---5---b7--1---b3--4---|
Fng|2---4---1---4---1---4---1---3---2---4---2---4---|

  G|------------------------7---9-------------------|
  D|----------------7---10--------------------------|
  A|--------7---10-----------------------------------|
  E|8---10-------------------------------------------|
```

Starts degree b3; ends degree 4.

P1 DESC - frets 5-8

Twelve notes. Keep the pick cycle moving through every string.

```
Deg|b3--1---b7--5---4---b3--1---b7--5---4---b3--1---|
Fng|4---1---4---1---3---1---3---1---3---1---4---1---|

  G|----------------7---5----------------------------|
  D|------------------------7---5--------------------|
  A|--------------------------------7---5-----------|
  E|-----------------------------------------8---5---|
```

Starts degree b3; ends degree 1.

RULE **When linking forward and reverse, articulate high-e fret 17 at the end of the forward route and again to begin the return. Linked circuit: 120 notes.**

Level 41 - Parallel Major and Minor Color Comparison

C# vs C | F# vs G | B vs D

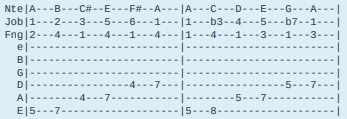
A remains the tonic. The surrounding pitch set changes from A major pentatonic to A minor pentatonic.

Listening rule

Play the major phrase, leave exactly one beat, then play the minor phrase. Do not change the articulation. Hear the altered third, sixth/flat seventh, and second/fourth as a color change around the same A roots.

P1 - major color | minor color

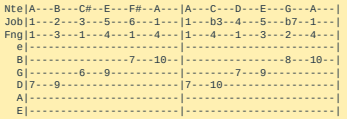
Same A-root endpoints; one beat of silence between phrases.



Keep rhythm and tone equal; identify color before checking.

P2 - major color | minor color

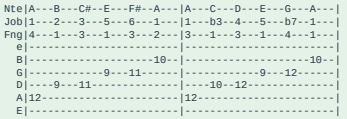
Same A-root endpoints; one beat of silence between phrases.



Keep rhythm and tone equal; identify color before checking.

P3 - major color | minor color

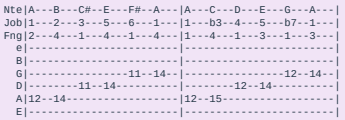
Same A-root endpoints; one beat of silence between phrases.



Keep rhythm and tone equal; identify color before checking.

P4 - major color | minor color

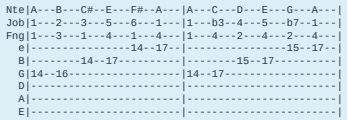
Same A-root endpoints; one beat of silence between phrases.



Keep rhythm and tone equal; identify color before checking.

P5 - major color | minor color

Same A-root endpoints; one beat of silence between phrases.



Keep rhythm and tone equal; identify color before checking.

EAR TEST **Cover the note rows, choose a card at random, and identify major or minor color before checking. Five pairs = 60 sounding tones.**

Level 41 - Practice Progression and Random Entry

420-NOTE WRITTEN WORKOUT

Build map accuracy and connection quality before adding speed.

Nine-phase progression

1. Compare A major and A minor pitch sets.
2. Map P1 and say 1-b3-4-5-b7.
3. Learn all five vertical cells.
4. Play every cell D-start and U-start.
5. Learn all four shared-anchor seams.
6. Play the forward 60-note zigzag.
7. Play the reverse 60-note zigzag.
8. Link the 120-note circuit.
9. Complete all five color comparisons.

Counts and repair rules

Module	Tones
5 position cells	120
4 seam cells	120
Forward + reverse	120
Color comparisons	60
Written total	420

Issue	Repair
Wrong note	Say the degree pair first.
Noisy seam	Release early; move thumb.
Pick reset	Air-pick the exact count.
Lost tonic	Stop on nearest A root.
Tension	Shorten route; relax P3.

Random-position entry cards

Card	Start note	Required A-root resolution
1. P1	G5 (C / b3)	D7 (A / 1)
2. P1	B8 (G / b7)	e5 (A / 1)
3. P2	E10 (D / 4)	D7 (A / 1)
4. P2	G9 (E / 5)	B10 (A / 1)
5. P3	E10 (D / 4)	A12 (A / 1)
6. P3	B13 (C / b3)	B10 (A / 1)
7. P4	E15 (G / b7)	A12 (A / 1)
8. P4	B13 (C / b3)	G14 (A / 1)
9. P5	D14 (E / 5)	G14 (A / 1)
10. P5	B15 (D / 4)	e17 (A / 1)

RULE Begin on the printed note, name its degree, create a six-note phrase inside that position, and finish on the assigned A root without losing the pulse.

Level 41 - Mastery Gate and Practice Log

NEXT: HORIZONTAL MOVEMENT + ARTICULATION

Advance only when the parallel-minor map is secure by sight, sound, and touch.

Mastery gate before Level 42

Name all five positions and fret spans; distinguish A minor pentatonic from A major pentatonic by sound and note name; play each vertical cell with both pick starts; shift after every shared anchor without scrape or hesitation; complete the linked 120-note zigzag on two separate days; resolve every random-entry card to its assigned A root; and identify all five color-comparison pairs by ear.
