Scale Exercises - Section V, Level 44

A blues resolution vocabulary, lick construction, and functional turnarounds

FIXED KEY: A | 10 MODULES | 646 TONES

Turn the complete A-blues map into a small vocabulary that can be bent, re-rhythmed, answered, moved to another position, closed on A, or redirected toward E7. The objective is transformation - not memorizing forty unrelated licks.

1. Resolve pitch

Calibrate b3-to-3*, 4-b5-5, and b7-to-1 before placing them inside longer phrases.

2. Transform the idea

Apply four rhythm engines, call-and-response structure, register changes, and five-position translation.

3. Decide the ending

Resolve to A for closure or land on E/E7 material to launch the next chorus.

Core vocabulary - three gestures, two destinations

```
A blues:       A  C   D  Eb  E  G
Degrees:       1  b3  4  b5  5  b7

BLUE THIRD     b3 -> 3* -> b3
FLAT FIVE      4  -> b5 -> 5
TONIC CADENCE  b7 -> 1

TONIC END      phrase -> A
TURNAROUND     phrase -> E / E7
```

ASTERISK RULE C#, F#, F, B, and G# appear only when marked. They are targeted chord or chromatic support notes, not new permanent members of the A-blues scale.

Written core workload

MODULE	TONES
Blue-third map	54
b5 resolutions	36
b7-to-1 map	48
Five lick families	160
Call and response	57
Position translation	65
Register answers	51
Ending pairs	70
Turnarounds	41
Recombination	64
TOTAL	**646**

Rhythm variants repeat the same eight-tone vocabulary. Pick-attack totals vary because bends, slides, hammer-ons, and releases create sounding tones without new attacks.

Session protocol

Choose one pitch-resolution module, one phrase-construction module, and one ending module. Use clean tone, name every starred note, and stop the session if bend intonation or hand tension deteriorates.

Scale Exercises - Section V, Level 44

Vocabulary map, support-note roles, and notation

MAP THE JOB BEFORE THE FRET

THE SIX-NOTE SCALE STAYS FIXED; SUPPORT NOTES HAVE TEMPORARY JOBS

Core A-blues collection

```
Nte|A---C---D---Eb--E---G---|
Deg|1---b3--4---b5--5---b7--|
```

These six notes may begin, pass, sustain, or resolve according to phrase context.

Marked support notes

C# 3*	blue-third destination over A/A7
F# 6*	turnaround passing or D-chord color
F b6*	chromatic lower approach to E
B 2*/E7-5	fifth of E7
G# 7*/E7-3	third of E7

Resolution-site map

String	Blue third C->C#	Flat five D-Eb-E	Tonic G->A
Low E	8-9	10-11-12	15-17
A	15-16	5-6-7	10-12
D	10-11	12-13-14	5-7
G	5-6	7-8-9	12-14
B	13-14	15-16-17	8-10
High e	8-9	10-11-12	15-17

Notation and counting

`b(target)`	bend until the source matches the printed target
`r`	release to the original source pitch
`/ or \`	timed slide; arrival is not re-picked
`h / p`	hammer-on or pull-off; keep the unpicked note in time
`~~~~`	sustain with pitch-centered vibrato
`*`	temporary chord or chromatic support note

Decision hierarchy

1. Name the destination before moving.
2. Decide whether the phrase closes or continues.
3. Choose the rhythm and amount of silence.
4. Select the position or register.
5. Add articulation last.
6. Remove any note that has no audible job.

Scale Exercises - Section V, Level 44

Module A - blue-third motion

6 SITES | TARGET FIRST | 54 TONES

PLAY C# FIRST; THEN MAKE THE BEND, SLIDE, AND LEGATO ARRIVE AT THE SAME PITCH

The blue third is not one fixed tuning. This workbook first trains a complete half-step arrival at C#, then later allows a controlled shade below that target. On this page, match the target exactly.

Low E - C fret 8 toward C# fret 9

```
TGT E|--9~~~~------------------|
BND E|--8b(9)r8-------------|
SLD E|--8/9-------------------|
LEG E|--8h9p8----------------|
```

b3 -> 3* -> b3 | target first; never guess the bend height

A - C fret 15 toward C# fret 16

```
TGT A|--16~~~~------------------|
BND A|--15b(16)r15-------------|
SLD A|--15/16-------------------|
LEG A|--15h16p15----------------|
```

b3 -> 3* -> b3 | target first; never guess the bend height

D - C fret 10 toward C# fret 11

```
TGT D|--11~~~~------------------|
BND D|--10b(11)r10-------------|
SLD D|--10/11-------------------|
LEG D|--10h11p10----------------|
```

b3 -> 3* -> b3 | target first; never guess the bend height

G - C fret 5 toward C# fret 6

```
TGT G|--6~~~~------------------|
BND G|--5b(6)r5-------------|
SLD G|--5/6-------------------|
LEG G|--5h6p5----------------|
```

b3 -> 3* -> b3 | target first; never guess the bend height

B - C fret 13 toward C# fret 14

```
TGT B|--14~~~~------------------|
BND B|--13b(14)r13-------------|
SLD B|--13/14-------------------|
LEG B|--13h14p13----------------|
```

b3 -> 3* -> b3 | target first; never guess the bend height

High e - C fret 8 toward C# fret 9

```
TGT e|--9~~~~------------------|
BND e|--8b(9)r8-------------|
SLD e|--8/9-------------------|
LEG e|--8h9p8----------------|
```

b3 -> 3* -> b3 | target first; never guess the bend height

Scale Exercises - Section V, Level 44

Module B - flat-five resolution cells

6 SITES | 4-b5-5 | 5-b5-4

MAKE THE SEMITONES EVEN; LET THE DESTINATION CREATE THE MEANING

First pick every note as one triplet per beat. Then convert the same cell into one-pick chromatic slides. Accent Eb only during the learning pass.

Low E - D(10) Eb(11) E(12)

```
Nte|D---Eb--E---|E---Eb--D---|
Deg|4---b5--5---|5---b5--4---|
  E|10  11  12  |12  11  10  |
```

Pass 1 picked as triplets. Pass 2 slide through all three notes with one attack. Pass 3 remove the b5 accent.

A - D(5) Eb(6) E(7)

```
Nte|D---Eb--E---|E---Eb--D---|
Deg|4---b5--5---|5---b5--4---|
  A|5   6   7   |7   6   5   |
```

Pass 1 picked as triplets. Pass 2 slide through all three notes with one attack. Pass 3 remove the b5 accent.

D - D(12) Eb(13) E(14)

```
Nte|D---Eb--E---|E---Eb--D---|
Deg|4---b5--5---|5---b5--4---|
  D|12  13  14  |14  13  12  |
```

Pass 1 picked as triplets. Pass 2 slide through all three notes with one attack. Pass 3 remove the b5 accent.

G - D(7) Eb(8) E(9)

```
Nte|D---Eb--E---|E---Eb--D---|
Deg|4---b5--5---|5---b5--4---|
  G|7   8   9   |9   8   7   |
```

Pass 1 picked as triplets. Pass 2 slide through all three notes with one attack. Pass 3 remove the b5 accent.

B - D(15) Eb(16) E(17)

```
Nte|D---Eb--E---|E---Eb--D---|
Deg|4---b5--5---|5---b5--4---|
  B|15  16  17  |17  16  15  |
```

Pass 1 picked as triplets. Pass 2 slide through all three notes with one attack. Pass 3 remove the b5 accent.

High e - D(10) Eb(11) E(12)

```
Nte|D---Eb--E---|E---Eb--D---|
Deg|4---b5--5---|5---b5--4---|
  e|10  11  12  |12  11  10  |
```

Pass 1 picked as triplets. Pass 2 slide through all three notes with one attack. Pass 3 remove the b5 accent.

Scale Exercises - Section V, Level 44

Module C - flat-seventh to tonic

6 SITES | PICK | SLIDE | LEGATO | BEND/SHIFT

THE FINAL A MUST ARRIVE ON TIME AND SOUND MORE SETTLED THAN G

On wound strings, the silent shift is the default fourth method. Whole-step bends are required only on G, B, and high-e; use support fingers and stop immediately if the motion causes pain.

Low E - G fret 15 to A fret 17

```
PCK E|--15--17--|
SLD E|--15/17----|
LEG E|--15h17----|
SFT E|--15----17--|
```

b7 -> 1 | the A destination must not arrive late or sharp

A - G fret 10 to A fret 12

```
PCK A|--10--12--|
SLD A|--10/12----|
LEG A|--10h12----|
SFT A|--10----12--|
```

b7 -> 1 | the A destination must not arrive late or sharp

D - G fret 5 to A fret 7

```
PCK D|--5--7--|
SLD D|--5/7----|
LEG D|--5h7----|
SFT D|--5----7--|
```

b7 -> 1 | the A destination must not arrive late or sharp

G - G fret 12 to A fret 14

```
PCK G|--12--14--|
SLD G|--12/14----|
LEG G|--12h14----|
BND G|--12b(14)--|
```

b7 -> 1 | the A destination must not arrive late or sharp

B - G fret 8 to A fret 10

```
PCK B|--8--10--|
SLD B|--8/10----|
LEG B|--8h10----|
BND B|--8b(10)--|
```

b7 -> 1 | the A destination must not arrive late or sharp

High e - G fret 15 to A fret 17

```
PCK e|--15--17--|
SLD e|--15/17----|
LEG e|--15h17----|
BND e|--15b(17)--|
```

b7 -> 1 | the A destination must not arrive late or sharp

Scale Exercises - Section V, Level 44

Module D - one-bar lick families 1 and 2

APPLY ALL 4 RHYTHM ENGINES

ONE NOTE ORDER; FOUR DIFFERENT RHYTHMIC IDENTITIES

Learn the sounding sequence first. Then repeat the same eight events as straight eighths, shuffle pairs, syncopated sixteenths, and burst-plus-space. Do not change the pitch order to rescue the rhythm.

FAMILY 1 - BLUE-THIRD CLOSURE

8 SOUNDING TONES

```
e|----------------------------5~~~~~|
B|--------------------5--8-----------|
G|--5b(6)r5--7--5--------------------|
D|-----------------------------------|
A|-----------------------------------|
E|-----------------------------------|
```

DEG b3-3*-b3-4-b3-5-b7-1

NTE C-C#-C-D-C-E-G-A

Calibrate the C# target first. The final A must sound more settled than the bent C#.

FAMILY 2 - FLAT-FIVE RESOLUTION

8 SOUNDING TONES

```
e|--8--10--11--12--10--8-------------|
B|------------------------8--10~~~~~|
G|-----------------------------------|
D|-----------------------------------|
A|-----------------------------------|
E|-----------------------------------|
```

DEG b3-4-b5-5-4-b3-b7-1

NTE C-D-Eb-E-D-C-G-A

Eb passes in both directions. Do not let the chromatic pair accelerate.

Scale Exercises - Section V, Level 44

Module D - one-bar lick families 3 and 4

LONG STRING LANE | DESCENDING ANSWER

KEEP THE VOCABULARY MUSICAL WHILE THE REGISTER AND DIRECTION CHANGE

Family 3 requires silent horizontal relocation. Family 4 begins closed on A, exposes the blue note, and returns through G. Apply all four rhythm engines to both.

FAMILY 3 - FLAT-SEVENTH TO TONIC

8 SOUNDING TONES

```
e|-----------------------------------|
B|-----------------------------------|
G|--9--12--14--17--14--12--9--14~~~~~|
D|-----------------------------------|
A|-----------------------------------|
E|-----------------------------------|
```

DEG 5-b7-1-b3-1-b7-5-1

NTE E-G-A-C-A-G-E-A

Use silent hand relocations between stations; the long string lane must not sound like an exercise.

FAMILY 4 - DESCENDING BLUE-NOTE ANSWER

8 SOUNDING TONES

```
e|--17--15--12--11--10--8-------------|
B|------------------------8--10~~~~~-|
G|-----------------------------------|
D|-----------------------------------|
A|-----------------------------------|
E|-----------------------------------|
```

DEG 1-b7-5-b5-4-b3-b7-1

NTE A-G-E-Eb-D-C-G-A

The answer begins closed on A, opens into tension, then returns to A through G.

Scale Exercises - Section V, Level 44

Module D - turnaround seed and rhythm engine

8 TONES | 4 RHYTHMS | STARRED NOTES

FAMILY 5 DOES NOT CLOSE ON A; IT BUILDS MOMENTUM TOWARD E

FAMILY 5 - TURNAROUND SEED

8 SOUNDING TONES

```
e|----------------------15--14--13--12~~~~--|
B|--10--13--14--17--------------------------|
G|-----------------------------------------|
D|-----------------------------------------|
A|-----------------------------------------|
E|-----------------------------------------|
```

DEG 1-b3-3*-5-b7-6*-b6*-5

NTE A-C-C#-E-G-F#-F-E

C#, F#, and F are marked support notes. The line points toward E rather than closing on A.

Four rhythm engines - use with every family

A. STRAIGHT EIGHTHS `1 & 2 & 3 & 4 &`

`X X X X X X X X`

Eight equal attacks or sounding events.

B. SHUFFLE PAIRS `1-trip-let 2-trip-let 3-trip-let 4-trip-let`

`X - X | X - X | X - X | X - X`

Place each pair on the outer triplet subdivisions.

C. SYNCOPATED SIXTEENTHS `1 e & a 2 e & a 3 e & a 4 e & a`

`- X - X | X - X - | - X - X | X - X -`

Preserve the rests; do not fill the empty slots.

D. BURST + SPACE `beat 1 | beat 2 | beat 3 | beat 4`

`3-note burst | rest | 3-note burst | 2 notes`

Keep the final pair relaxed after the silent second beat.

Scale Exercises - Section V, Level 44

Module E - two-bar call and response: P1-P2

QUESTION ENDS AWAY FROM A | ANSWER RESOLVES

KEEP ONE RHYTHMIC OR CONTOUR FEATURE SO THE ANSWER BELONGS TO THE CALL

Play the call, leave one beat of silence, then play the answer. Later shorten the silence without letting the phrases merge into one continuous scale run.

P1 CALL - END ON 4

```
e|--------------------------|
B|-------------5--8---------|
G|--5--7--8-----------7~~~~~|
D|--------------------------|
A|--------------------------|
E|--------------------------|
```

DEG b3-4-b5-5-b7-4

Leave the phrase suspended on D.

P1 ANSWER - RESOLVE TO 1

```
e|--8--5--------------------|
B|--------8--5--------------|
G|--------------7--5--------|
D|--------------------7~~~~~|
A|--------------------------|
E|--------------------------|
```

DEG b3-1-b7-5-4-b3-1

Reuse the descending contour and finish on A.

P2 CALL - CHROMATIC QUESTION

```
e|--8--10--11--12--10~~~~~|
B|--------------------------|
G|--------------------------|
D|--------------------------|
A|--------------------------|
E|--------------------------|
```

DEG b3-4-b5-5-4

The final D asks for a lower answer.

P2 ANSWER - ROOT THROUGH b7

```
e|--------------------------|
B|--10--8-------------------|
G|---------9--7-------------|
D|---------------10--7~~~~~|
A|--------------------------|
E|--------------------------|
```

DEG 1-b7-5-4-b3-1

The answer compresses the same note pool toward A.

Scale Exercises - Section V, Level 44

Module E - two-bar call and response: P3-P5

THREE REGISTERS | THREE DIFFERENT TENSIONS

THE ANSWER MAY BE SHORTER, LOWER, OR LESS CHROMATIC THAN THE CALL

P3 CALL - END ON b7 / P3 ANSWER - FOUR-NOTE CLOSURE

```
e|---------------------|
B|--10--13-------------|
G|---------12--9--12~~~~|
D|---------------------|
A|---------------------|
E|---------------------|
```

ANSWER

```
e|--12--10------------|
B|---------13--10~~~~--|
G|--------------------|
D|--------------------|
A|--------------------|
E|--------------------|
```

1-b3-b7-5-b7 || 5-4-b3-1

P4 CALL - EXPOSE b5 / P4 ANSWER - RELEASE TO A

```
e|--12--15--12----------------|
B|-------------13--15--16~~~~--|
G|-----------------------------|
D|-----------------------------|
A|-----------------------------|
E|-----------------------------|
```

ANSWER

```
e|--------------------------|
B|--17--15--13-------------|
G|------------14--12--14~~~~|
D|--------------------------|
A|--------------------------|
E|--------------------------|
```

5-b7-5-b3-4-b5 || 5-4-b3-1-b7-1

P5 CALL - HIGH b5 QUESTION / P5 ANSWER - DESCEND TO A

```
e|--15--17--15----------------|
B|-------------17--16--15~~~~--|
G|-----------------------------|
D|-----------------------------|
A|-----------------------------|
E|-----------------------------|
```

ANSWER

```
e|--17--15-------------------|
B|---------17--15-------------|
G|---------------17--14~~~~--|
D|---------------------------|
A|---------------------------|
E|---------------------------|
```

b7-1-b7-5-b5-4 || 1-b7-5-4-b3-1

Scale Exercises - Section V, Level 44

Module F - five-position translation: core lick A

b3-4-b5-5-b7-1 | 5 POSITIONS

COPY THE DEGREE PATTERN, NOT THE FRET DISTANCES

Every cell says C-D-Eb-E-G-A. The final P5 version extends to fret 19 so the note identity remains exact. Release and reform the frame instead of holding a rigid stretch.

P1 - ROOT FRAME

```
e|---------------------|
B|-------------8--10~~|
G|--5--7--8--9---------|
D|---------------------|
A|---------------------|
E|---------------------|
```

DEG b3-4-b5-5-b7-1

Core lick A.

P2 - FLAT-THIRD FRAME

```
e|---------------------|
B|---------------------|
G|---------------------|
D|---------------------|
A|-------------10--12~~|
E|--8--10--11--12------|
```

DEG b3-4-b5-5-b7-1

Same degrees, lower strings.

P3 - FOURTH-DEGREE FRAME

```
e|-----------------------------|
B|-----------------------------|
G|--------------------12---14~~|
D|-10---12---13---14-----------|
A|-----------------------------|
E|-----------------------------|
```

DEG b3-4-b5-5-b7-1

Same vocabulary, mid neck.

P4 - FIFTH-DEGREE FRAME

```
e|--------------------15---17~~|
B|-13---15---16---17-----------|
G|-----------------------------|
D|-----------------------------|
A|-----------------------------|
E|-----------------------------|
```

DEG b3-4-b5-5-b7-1

P5 - FLAT-SEVENTH FRAME

```
e|-----------------------------|
B|-----------------------------|
G|-----------------------------|
D|--------------------17---19~~|
A|-15---17---18---19-----------|
E|-----------------------------|
```

DEG b3-4-b5-5-b7-1

Selected extension to fret 19; release and reform.

Scale Exercises - Section V, Level 44

Module F - five-position translation: core lick B

1-b7-5-b5-4-b3-1 | 5 POSITIONS

DESCEND THROUGH THE BLUE NOTE AND CLOSE ON A IN EVERY FRAME

The string path changes substantially, especially in P3 and P4. Name A-G-E-Eb-D-C-A before playing each version.

P1 - ROOT FRAME

```
e|--5-----------------|
B|----8--5-------------|
G|---------8--7--5-----|
D|-----------------7~~~|
A|---------------------|
E|---------------------|
```

DEG 1-b7-5-b5-4-b3-1

Descending answer.

P2 - FLAT-THIRD FRAME

```
e|---------------------|
B|--10--8--------------|
G|--------9--8--7------|
D|----------------10--7~~~|
A|---------------------|
E|---------------------|
```

DEG 1-b7-5-b5-4-b3-1

Same degrees, shifted seam.

P3 - FOURTH-DEGREE FRAME

```
e|---------------------|
B|--10-----------------|
G|-----12--9-----------|
D|-----------13--12--10|
A|--------------------12~~~|
E|---------------------|
```

DEG 1-b7-5-b5-4-b3-1

Keep the crossings quiet.

P4 - FIFTH-DEGREE FRAME

```
e|---------------------------------|
B|-------------------------13------|
G|-14---12--------------------------|
D|-----------14---13---12-----------|
A|-----------------------------12~~|
E|---------------------------------|
```

DEG 1-b7-5-b5-4-b3-1

P5 - FLAT-SEVENTH FRAME

```
e|--17--15-------------|
B|--------17--16--15---|
G|------------------17--14~~~|
D|---------------------|
A|---------------------|
E|---------------------|
```

DEG 1-b7-5-b5-4-b3-1

High-register closure.

Scale Exercises - Section V, Level 44

Module G - high-register and low-register answers

4 CONVERSATIONS | SAME IDEA, NEW OCTAVE

REGISTER CHANGE SHOULD SOUND LIKE A RESPONSE, NOT A RANDOM TELEPORT

Preserve either the degree order, contour, or rhythmic profile when moving the answer. The listener should recognize the relationship even though the string set changes.

LOW CALL -> HIGH ANSWER

```
e|------------------|
B|------------------|
G|------------------|
D|------------------|
A|------5--6--7--10~~~|
E|--5--8------------|
```

ANSWER

```

b3-4-b5-5-b7-1 || b7-1-5-b5-4-b3-1

Scale Exercises - Section V, Level 44

Module H - tonic endings versus turnaround endings: P1-P3

SAME OPENING | DIFFERENT DESTINATION

A CLOSES THE THOUGHT; E POINTS TOWARD THE V CHORD

Play each pair back to back. The opening remains nearly identical. Only the last landing changes the function of the phrase.

P1 TONIC ENDING

```
e|----------------------|
B|----------------------|
G|--5--7--8--9--7--5----|
D|------------------7~~~|
A|----------------------|
E|----------------------|
```

DEG b3-4-b5-5-4-b3-1

Close the chorus on A.

P1 TURNAROUND ENDING

```
e|----------------------|
B|----------------------|
G|--5--7--8--9--7--5----|
D|----------------------|
A|------------------7~~~|
E|----------------------|
```

DEG b3-4-b5-5-4-b3-5

Land on E to point toward the V chord.

P2 TONIC ENDING

```
e|--8--10--11--12--10--8------|
B|----------------------10~~~|
G|---------------------------|
D|---------------------------|
A|---------------------------|
E|---------------------------|
```

DEG b3-4-b5-5-4-b3-1

A closes the phrase.

P2 TURNAROUND ENDING

```
e|--8--10--11--12--10--8------|
B|---------------------------|
G|----------------------9~~~|
D|---------------------------|
A|---------------------------|
E|---------------------------|
```

DEG b3-4-b5-5-4-b3-5

E keeps the form moving.

P3 TONIC ENDING

```
e|---------------------------------|
B|-----------------------------10~~|
G|---------------------------------|
D|-10---12---13---14---12---10-----|
A|---------------------------------|
E|---------------------------------|
```

DEG b3-4-b5-5-4-b3-1

Same opening, tonic destination.

P3 TURNAROUND ENDING

```
e|---------------------------------|
B|---------------------------------|
G|-----------------------------9~~|
D|-10---12---13---14---12---10-----|
A|---------------------------------|
E|---------------------------------|
```

DEG b3-4-b5-5-4-b3-5

Same opening, dominant destination.

Scale Exercises - Section V, Level 44

Module H - tonic endings versus turnaround endings: P4-P5

CLOSE | CONTINUE | HEAR THE FORM

DO NOT CALL EVERY FINAL NOTE A RESOLUTION

A final A is tonic closure. A final E may sound stable inside the scale, but in bar 12 it functions as the root of the V chord and asks for another chorus.

P4 TONIC ENDING

```
e|----------------------------|
B|--13--15--16--17--15--13----|
G|----------------------------|
D|----------------------------|
A|------------------------12~~~|
E|----------------------------|
```

DEG b3-4-b5-5-4-b3-1

Close downward to A.

P4 TURNAROUND ENDING

```
e|----------------------------|
B|--13--15--16--17--15--13----|
G|----------------------------|
D|----------------------14~~~|
A|----------------------------|
E|----------------------------|
```

DEG b3-4-b5-5-4-b3-5

Use E as the bar-12 launch point.

P5 TONIC ENDING

```
e|--15--17--15----------------|
B|------------17--16--15------|
G|----------------------14~~~|
D|----------------------------|
A|----------------------------|
E|----------------------------|
```

DEG b7-1-b7-5-b5-4-1

High-register material, final A.

P5 TURNAROUND ENDING

```
e|--15--17--15----------------|
B|------------17--16--15--17~~~|
G|----------------------------|
D|----------------------------|
A|----------------------------|
E|----------------------------|
```

DEG b7-1-b7-5-b5-4-5

High-register material, final E.

Ending audit

Tonic close	A or an A-centered chord tone held through the bar	Use when the chorus or solo statement ends.
Turnaround	E, B, G#, or an E7 voicing	Use when bar 12 must propel the form back to bar 1.
Open tension	Eb, D, C, or G held intentionally	Use sparingly; the accompaniment must explain the tension.

Scale Exercises - Section V, Level 44

Module I - functional bar-11 and bar-12 turnarounds

4 MODELS | END ON E7 FUNCTION

A TURNAROUND DOES NOT MERELY DESCEND; IT CREATES A REASON TO RETURN TO BAR 1

Practice each model over the final two bars of a twelve-bar backing track. Count bar 11 and bar 12 aloud. Starred tones are chromatic or E7 support notes.

1. SINGLE-NOTE DESCENT INTO E7

```
e|-----------------------------------------12~~|
B|-----------------------------------12-------|
G|-14---12---11---10----9--------13-----------|
D|-------------------------12-----------------|
A|-------------------------------------------|
E|-------------------------------------------|
```

DEG 1-b7-6*-b6*-5 | E7:b7-3-5-1

Bar 11 uses blues and chromatic support tones; bar 12 spells E7 upward.

2. BLUE THIRD INTO CHROMATIC V APPROACH

```
e|---------------------15--14--13--12~~~~--|
B|--10--13--14--17-------------------------|
G|-----------------------------------------|
D|-----------------------------------------|
A|-----------------------------------------|
E|-----------------------------------------|
```

DEG 1-b3-3*-5-b7-6*-b6*-5

Move from minor color to the A7 third, then descend to E.

3. CLASSIC DESCENDING VOICE-LEADING SHAPES

```
e|-------------------------------|
B|--5----5----5----5----5--------|
G|--6----5----4----3----7--------|
D|--7----6----5----4----6--------|
A|----------------------7--------|
E|-------------------------------|
```

DEG BAR 11: four descending three-note shapes | BAR 12: E7

Let the upper E remain common while the inner voices fall.

4. HIGH BEND, BLUE THIRD, AND B LANDING

```
e|--15b(17)r15--12-------------------------|
B|-----------------15--13h14--12~~~~-------|
G|-----------------------------------------|
D|-----------------------------------------|
A|-----------------------------------------|
E|-----------------------------------------|
```

DEG b7-1-b7-5-4-b3-3*-2*/E7-5

The final B is not home in A; it points into E7.

Scale Exercises - Section V, Level 44

Module J - lick recombination lab

4 OPENINGS x 4 ENDINGS = 16 PHRASES

BUILD VOCABULARY BY RECOMBINING FUNCTIONS, NOT BY COLLECTING ISOLATED LICKS

Play an opening, leave a small breath, and attach an ending. Adjust the connecting octave or string only when needed; the degree function must remain recognizable.

Four openings

A b3-4-b5-5 C-D-Eb-E

```
G|--5--7--8--9--|
```

B 1-b3-4-b5 A-C-D-Eb

```
e|--5--8--10--11--|
```

C 5-b7-1-b3 E-G-A-C

```
B|--5--8--10--13--|
```

D b7-5-b5-4 G-E-Eb-D

```
e|--15--12--11--10--|
```

Four endings

1 5-4-b3-1 E-D-C-A

```
B|--5----------------| G|----7--5----------| D|----------7~~~~~~|
```

2 5-b7-1-1 E-G-A-A

```
B|--5--8--10--10~~~~~~|
```

3 b3-3*-5-1 C-C#-E-A

```
G|--5b(6)----9------| D|--------------7~~~~|
```

4 b7-6*-b6*-5 G-F#-F-E

```
e|--15--14--13--12~~~~~~|
```

Four model combinations

A + 1	b3-4-b5-5 | 5-4-b3-1	Resolve the flat-five opening directly to A.
B + 3	1-b3-4-b5 | b3-3*-5-1	Answer blue-note tension with a blue-third resolution.
C + 2	5-b7-1-b3 | 5-b7-1-1	Repeat the root idea while changing the route.
D + 4	b7-5-b5-4 | b7-6*-b6*-5	Turn a descending blues opening into a V-directed ending.

16-choice assignment

Play A1-A4, B1-B4, C1-C4, and D1-D4. Circle four combinations that sound strongest. Then change the rhythm of those four without changing the degree sequence. A weak combination may need a register adjustment; it does not need extra notes.

Scale Exercises - Section V, Level 44

Practice progression, error diagnosis, and variations

PITCH FIRST | RHYTHM SECOND | FORM THIRD

TEN-PHASE PRACTICE PROGRESSION

1. Calibrate six blue-third targets before bending.
2. Complete six 4-b5-5 / 5-b5-4 sites.
3. Complete six b7-to-1 sites by three methods.
4. Apply four rhythms to one lick family.
5. Add the remaining four families at the same tempo.
6. Link five calls and answers with measured space.
7. Translate two core licks through five positions.
8. Complete four register pairs and ten endings.
9. Insert one turnaround into bars 11-12.
10. Play all 16 recombination choices and edit ruthlessly.

Error diagnosis

- BLUE THIRD OUT OF TUNE - replay C# and narrow the bend.
- RANDOM b5 - choose pass, hold, or slide first.
- LATE ROOT - isolate G-to-A and remove the setup.
- RHYTHMS MERGE - exaggerate rests before normalizing.
- UNRELATED ANSWER - repeat one contour or rhythmic cell.
- WRONG TRANSLATION - name notes before frets.
- EARLY CLOSURE - finish the turnaround on V material.
- CHROMATIC SOUP - state every starred note job.
- PAIN/TENSION - stop bends and use picked versions.

After the written workbook is clean

1. Move one family to a new position by note name.
2. Replace one picked connection with a slide.
3. Answer a high call below the twelfth fret.
4. Play a tonic ending in bar 10, then hear why it is early.
5. Delay the turnaround by one beat without losing bar 1.
6. Record two versions: sparse and dense.
7. Remove one note from every phrase without losing identity.

Advancement rules

Add 2 BPM only after three clean repetitions of the current phrase and rhythm. After two pitch or rhythm errors, reduce 4-6 BPM or remove one phrase half. Expand the vocabulary only after the listener can hear whether the phrase closes on A or points toward E7.

Scale Exercises - Section V, Level 44

Mastery gate, completion audit, and next level

NEXT: LEVEL 45 - SHUFFLE AND TWELVE-BAR FORM

LEVEL 44 MASTERY GATE

Play all six blue-third sites in tune; complete the flat-five and b7-to-1 maps; perform five lick families in four rhythmic forms; link five call-and-response pairs; translate two core licks through five positions; execute four register conversations, ten ending choices, four functional turnarounds, and all 16 recombination choices; then demonstrate one tonic close and one bar-12 turnaround on two separate days.

Completion audit

- ☐ Six blue-third sites in tune
- ☐ Six flat-five sites
- ☐ Six b7-to-1 sites
- ☐ Five families x four rhythms
- ☐ Five call-and-response pairs
- ☐ Two licks x five positions
- ☐ Four register conversations
- ☐ Five tonic endings
- ☐ Five turnaround endings
- ☐ Four functional turnarounds
- ☐ Sixteen recombinations
- ☐ Two separate clean days

Practice log

Date	Focus	BPM	Rhythm	Pitch issue	Ending: A / V	Weak phrase / position	Next target

NEXT Level 45 isolates shuffle feel, triplet placement, rests, pickups, stop-time phrasing, twelve-bar navigation, and turnaround timing so this vocabulary remains inside the form.
