Scale Exercises - Section V, Level 45

A blues shuffle rhythm, triplet placement, rests, pickups, and twelve-bar navigation

FIXED KEY: A | 10 MODULES | 540 ATTACKS

Move the vocabulary from Level 44 into time. This workbook treats the triplet grid, silence, chord landmarks, and bar-11/bar-12 timing as equal parts of the phrase. The goal is not simply to play blues notes; it is to place them so the listener can hear the shuffle and the twelve-bar form.

1. Subdivide before playing

Count all three triplet subdivisions. Shuffle eighths occupy the first and third slots; the middle slot remains silent.

2. Treat rests as events

Do not shorten or fill the printed silence. A late entrance is wrong even when every pitch is correct.

3. Hear the bar number

Know when bars 5, 9, 10, 11, and 12 arrive. A turnaround that begins one bar late is not a turnaround.

Core grid and form map

```
STRAIGHT EIGHTHS    1  &  2  &  3  &  4  &
SHUFFLE GRID        1  tr let | 2  tr let | 3  tr let | 4  tr let
SHUFFLE ATTACKS     X  .  X  | X  .  X  | X  .  X  | X  .  X

12-BAR A BLUES
| A7 | A7 | A7 | A7 |
| D7 | D7 | A7 | A7 |
| E7 | D7 | A7 | E7 |   turnaround
| E7 | D7 | A7 | A7 |   tonic ending option
```

TRAINING RULE Use the outer-triplet grid first. At faster tempos, keep the feel even if the exact ratio relaxes.

Written core workload

Module	Attacks
Straight vs shuffle	48
Triplet placement	40
Root-change form	108
Pickup placement	27
Rest and entry	28
Call and response	50
Stop-time	29
Twelve-bar navigation	102
Turnaround timing	48
Click displacement	60
TOTAL	540

Session protocol

Choose one subdivision module, one form module, and one phrase module. Start at a tempo where the middle triplet subdivision can be counted aloud. Use clean tone, tap the foot on quarter notes, and stop the session if the form becomes guesswork or the hands become tense.

ASTERISK RULE C#, F#, F, B, and G# appear only where marked as temporary chord or turnaround support notes.

Scale Exercises - Section V, Level 45

Triplet grid, twelve-bar landmarks, and notation

COUNT THE EMPTY SLOT

THE MIDDLE TRIPLET SUBDIVISION IS SILENT, NOT MISSING

Triplet-grid legend

```
Cnt|1  tr let|2  tr let|3  tr let|4  tr let|
Shf|X  .  X |X  .  X |X  .  X |X  .  X |
Tri|X  X  X |X  X  X |X  X  X |X  X  X |
Off|.  .  X |.  .  X |.  .  X |.  .  X |
```

X = attack. A period = silence. Count every slot even when no note occurs. The mask describes onset timing; a note may continue sounding through later slots.

Notation and physical rules

Symbol	Meaning
x	staccato hit; mute immediately
/ or \	timed slide; arrival is not re-picked
h / p	hammer-on or pull-off
b(target)	bend until source matches target
~~	sustain with pitch-centered vibrato
R	printed rest; preserve its full duration
*	temporary support note, not new scale degree

Twelve-bar landmark map

Bars	Chord	Function	Phrase job
1-4	A7	I	establish the call; do not rush toward the IV chord
5-6	D7	IV	hear the first large form change
7-8	A7	I	answer or reset
9	E7	V	highest harmonic pressure
10	D7	IV	step down from the V chord

Counting hierarchy

1. Count quarter-note beats. 2. Add the triplet syllables. 3. Speak bar numbers. 4. Name the active chord. 5. Add the notes. If any earlier layer collapses, remove the later layer.

Click hierarchy

Begin with every quarter note. Move to beats 2 and 4 only after the shuffle remains even. One click per bar and one click every two bars are form tests, not speed tests.

Scale Exercises - Section V, Level 45

Module A - straight eighths versus shuffle eighths

6 BARS | 48 ATTACKS

KEEP THE PITCH ORDER IDENTICAL; CHANGE ONLY THE SPACING

Play each eight-note pattern once as straight eighths and once on the outer triplet subdivisions. Record both passes. The shuffle version should not become louder, shorter, or faster simply because the gaps are unequal.

Pattern 1 - tonic pulse

```
Notes: A A A A A A A A
Tab  E|5--5--5--5--5--5--5--5--|
```

```
STRAIGHT  Cnt|1  &  2  &  3  &  4  & |
          Hit|X  X  X  X  X  X  X  X |
SHUFFLE   Cnt|1 tr let|2 tr let|3 tr let|4 tr let|
          Hit|X .  X |X .  X |X .  X |X .  X |
```

AUDIT Same eight pitches; different onset spacing; no accent on the second note of each pair.

Pattern 2 - one-string contour

```
Notes: A C D E E D C A
Tab  E|5--8--10-12-12-10-8--5--|
```

```
STRAIGHT  Cnt|1  &  2  &  3  &  4  & |
          Hit|X  X  X  X  X  X  X  X |
SHUFFLE   Cnt|1 tr let|2 tr let|3 tr let|4 tr let|
          Hit|X .  X |X .  X |X .  X |X .  X |
```

AUDIT Same eight pitches; different onset spacing; no accent on the second note of each pair.

Pattern 3 - b7-to-1 answer

```
Notes: G A G E G A G A
Tab  G|12-14-12-9--12-14-12-14-|
```

```
STRAIGHT  Cnt|1  &  2  &  3  &  4  & |
          Hit|X  X  X  X  X  X  X  X |
SHUFFLE   Cnt|1 tr let|2 tr let|3 tr let|4 tr let|
          Hit|X .  X |X .  X |X .  X |X .  X |
```

AUDIT Same eight pitches; different onset spacing; no accent on the second note of each pair.

Scale Exercises - Section V, Level 45

Module B - single-note triplet placement

8 CARDS | 40 ATTACKS

USE ONLY A AT LOW-E FRET 5; REMOVE PITCH CHOICE FROM THE RHYTHM PROBLEM

Every X is low-E fret 5. Tap the foot on the numbered beat, count 1-tr-let aloud, and mute the note after each attack. Repeat each card four times before moving to the next mask.

1. Downbeats only

```
Cnt|1tr|2tr|3tr|4tr|   Mask|X..|X..|X..|X..|
Tab E|--5--| for every X
```

4 attacks

2. Shuffle outer thirds

```
Cnt|1tr|2tr|3tr|4tr|   Mask|X.X|X.X|X.X|X.X|
Tab E|--5--| for every X
```

8 attacks

3. Middle subdivision

```
Cnt|1tr|2tr|3tr|4tr|   Mask|.X.|.X.|.X.|.X.|
Tab E|--5--| for every X
```

4 attacks

4. Final subdivision

```
Cnt|1tr|2tr|3tr|4tr|   Mask|..X|..X|..X|..X|
Tab E|--5--| for every X
```

4 attacks

5. Full triplets on 1 and 3

```
Cnt|1tr|2tr|3tr|4tr|   Mask|XXX|...|XXX|...|
Tab E|--5--| for every X
```

6 attacks

6. Full triplets on 2 and 4

```
Cnt|1tr|2tr|3tr|4tr|   Mask|...|XXX|...|XXX|
Tab E|--5--| for every X
```

6 attacks

7. Displaced five

```
Cnt|1tr|2tr|3tr|4tr|   Mask|X..|.X.|..X|.XX|
Tab E|--5--| for every X
```

5 attacks

8. Late pickup into next bar

```
Cnt|1tr|2tr|3tr|4tr|   Mask|...|...|...|.XX || X..|
Tab E|--5--| for every X
```

3 attacks

REPAIR If card 3 or 4 drifts onto the beat, clap the mask first, then play it without changing the foot pulse.

Scale Exercises - Section V, Level 45

Module C - root-change study through the twelve-bar form

3 PASSES | 108 ATTACKS

CHANGE THE ROOT ON TIME BEFORE ADDING LEAD VOCABULARY

Use only three root locations: A = low-E fret 5, D = A-string fret 5, and E = A-string fret 7. Complete the entire twelve-bar form with one attack pattern before beginning the next pass.

Pass 1 - one landmark attack

```
Mask|X..|...|...|...|
A7  E|5|
D7  A|5|
E7  A|7|
```

TOTAL 12 attacks across 12 bars

Pass 2 - quarter-note roots

```
Mask|X..|X..|X..|X..|
A7  E|5|
D7  A|5|
E7  A|7|
```

TOTAL 48 attacks across 12 bars

Pass 3 - shuffle pairs on beats 1 and 3

```
Mask|X.X|...|X.X|...|
A7  E|5|
D7  A|5|
E7  A|7|
```

TOTAL 48 attacks across 12 bars

Twelve-bar route - apply the selected cell to every bar

Bar	1	2	3	4	5	6	7	8	9	10	11	12
Chord	A7	A7	A7	A7	D7	D7	A7	A7	E7	D7	A7	E7
Root	E5	E5	E5	E5	A5	A5	E5	E5	A7	A5	E5	A7

Form-count pass

```
Speak:  1-A  2-A  3-A  4-A | 5-D  6-D | 7-A  8-A | 9-E  10-D  11-A  12-E
Feet:   quarter-note pulse continues through every string change and every silent subdivision.
```

ENDING OPTION After the E7 turnaround version is secure, replace bar 12 with A7 and hear the difference between continuation and closure.

Scale Exercises - Section V, Level 45

Module D - pickup-note placement into chord changes

9 CELLS | 27 ATTACKS

THE DESTINATION ROOT MUST LAND ON THE NEXT BAR'S BEAT 1

Each three-note line contains two pickup notes in the source bar and one destination root on the following downbeat. Use all three timing masks for every transition.

A7 -> D7

```
Notes: A-C-D
Tab D|7--10--12|
Degrees: 1-b3 -> IV root
```

```
A. BEAT-4 PAIR     ...|...|...|X.X || X..
B. LATE TRIPLET    ...|...|...|.XX || X..
C. TWO-BEAT PICKUP ...|...|..X|..X || X..
```

LANDING The third note is the new chord root; do not accent either pickup more strongly.

A7 -> E7

```
Notes: D-Eb-E
Tab A|5--6---7-|
Degrees: 4-b5 -> V root
```

```
A. BEAT-4 PAIR     ...|...|...|X.X || X..
B. LATE TRIPLET    ...|...|...|.XX || X..
C. TWO-BEAT PICKUP ...|...|..X|..X || X..
```

LANDING The third note is the new chord root; do not accent either pickup more strongly.

E7 -> A7

```
Notes: E-G-A
Tab G|9--12--14|
Degrees: 5-b7 -> I root
```

```
A. BEAT-4 PAIR     ...|...|...|X.X || X..
B. LATE TRIPLET    ...|...|...|.XX || X..
C. TWO-BEAT PICKUP ...|...|..X|..X || X..
```

LANDING The third note is the new chord root; do not accent either pickup more strongly.

Scale Exercises - Section V, Level 45

Module E - deliberate rests and controlled entries

6 CARDS | 28 ATTACKS

DO NOT FILL THE REST WITH A GHOST NOTE, SLIDE, OR NERVOUS PICK MOTION

Every card spans two bars. Count through the blank time and enter exactly where printed. The phrase should sound intentional even when only two notes are played.

1. Rest beat 1; six-note entry

```
Mask|...|X.X|X..|X.X || X..|...|...|...|
G|5--7--8--9--7--5--|
```

6 attacks

2. Rest beats 1-2; four-note entry

```
Mask|...|...|X.X|X.X || ...|...|...|...|
B|8--10--8--5--|
```

4 attacks

3. Rest beats 1-3; two-note answer

```
Mask|...|...|...|X.X || ...|...|...|...|
D|5--7--|
```

2 attacks

4. Phrase, then a full silent bar

```
Mask|X..|..X|X..|..X || ...|...|...|...|
G|9--7--5-----|
D|---------7--|
```

4 attacks

5. Call, two-beat gap, answer

```
Mask|XXX|...|...|XXX || ...|...|...|...|
B|8--10--8----------|
G|---------7--5-----|
D|---------------7--|
```

6 attacks

6. Full bar rest; six-note response

```
Mask|...|...|...|... || X.X|X.X|X..|X..|
e|12--11--10--8------|
B|--------------8--10-|
```

6 attacks

Scale Exercises - Section V, Level 45

Module F - four-bar calls and four-bar responses

STUDIES 1-2 | 34 ATTACKS

THE RESPONSE MUST PRESERVE ONE RECOGNIZABLE FEATURE OF THE CALL

Practice over an A drone or static A7. Each bar contains deliberate space. First play the written pair; then keep the call and invent a new response with the same rhythm.

Study 1 - rhythm echo: two attacks per bar

```
CALL - BARS 1-4
Bar 1  G|5--7--|    Bar 2  G|8--9--|    Bar 3  B|8--10-|    Bar 4  G|12--7--|
Notes   C  D            Eb E             G  A            G   D

RESPONSE - BARS 5-8
Bar 5  e|8--10-|    Bar 6  e|11--12|    Bar 7  B|8--10-|    Bar 8  G|5-----| D|--7--|
Notes   C  D            Eb  E              G  A             C  A
```

JOB The response retains the two-attack rhythm but closes on A instead of D.

Study 2 - ascending call, descending answer

```
CALL - 9 TONES
B1 E|5--8--|  B2 E|10-11-|  B3 E|12----| G|12-14-|  B4 e|8--10-|
    A  C          D  Eb         E          G  A          C  D

ANSWER - 9 TONES
B5 e|12-11-|  B6 e|10-8--|  B7 B|10-8--| G|--9--|  B8 G|7-----| D|--7--|
    E  Eb         D  C          A  G       E        D  A
```

JOB Reverse the contour, reduce the register, and let the final A occupy the remaining bar.

Scale Exercises - Section V, Level 45

Module F - call-and-response continuation and transformation

STUDY 3 | TOTAL MODULE: 50 ATTACKS

MOVE THE ANSWER TO A NEW REGISTER WITHOUT LOSING THE RHYTHMIC IDENTITY

Study 3 - low-register call, high-register answer

```
CALL - BARS 1-4 / 8 TONES
B1 E|5--8--|   B2 A|5--6--|   B3 A|7-----| D|--5--|   B4 D|7--10-|
    A  C           D  Eb          E  G             A  C

RESPONSE - BARS 5-8 / 8 TONES
B5 e|12-11-|   B6 e|10-8--|   B7 B|10-8--|   B8 G|5-----| D|--7--|
    E  Eb          D  C           A  G          C  A
```

JOB The answer begins more than an octave above the call but retains the two-note-per-bar pacing.

Response-transformation passes

1. Exact rhythm, different notes.
2. Same first interval, new ending.
3. Same contour, half the note count.
4. Same register, delayed by one beat.
5. New register, same final A.

Failure test

Play only the three written responses while a partner or recording supplies the calls in random order. Identify which response belongs to which call from rhythm and contour, not from memorized page order.

ADVANCE A listener can identify the intended pair without seeing the page.

Scale Exercises - Section V, Level 45

Module G - stop-time phrasing

4 STUDIES | 29 ATTACKS

MAKE THE ROOT HIT SHORT; LET THE LEAD PHRASE ENTER INTO THE OPEN SPACE

The printed root is a staccato ensemble-style hit, not a sustained drone. Mute it immediately, keep counting, and place the lead phrase at the assigned beat.

1. A hit; phrase begins on beat 2

```
HIT E|5x----------------|
LEAD G|---5--7--8--9-----|
```

5 attacks

2. D hit; phrase begins on beat 3

```
HIT A|5x----------------|
LEAD B|--------8--10--8--|
```

4 attacks

3. E hit; late beat-4 pickup

```
HIT A|7x----------------|
LEAD e|------------10-11-12|
```

4 attacks

4. Four-bar stop-time chain

```
BAR 1 - A7
HIT  E|5x----------|
LEAD G|--5--7--5---|

BAR 2 - D7
HIT  A|5x----------|
LEAD D|--7--10-12--|

BAR 3 - E7
HIT  A|7x----------|
LEAD A|--5--6--7---|

BAR 4 - A7
HIT  E|5x----------|
LEAD G|--12-14-----| D|--------7--|
```

COUNT 16 attacks. Repeat the chain without adding a fill after the last A.

MUTING Use both hands. The root hit must not ring underneath the lead phrase.

FORM Name the chord before the hit; the phrase begins only after the mute.

Scale Exercises - Section V, Level 45

Module H - twelve-bar navigation and landmark pass

LANDMARKS | 6 ATTACKS

COUNT ALL TWELVE BARS EVEN THOUGH ONLY SIX ROOTS ARE PLAYED

Form map - chord, root location, and phrase job

Bar	Chord	Root tab	Landmark?	Phrase job
1	A7	E5	PLAY	establish the form
2	A7	E5	count	continue the call
3	A7	E5	count	develop or leave space
4	A7	E5	count	prepare the IV change
5	D7	A5	PLAY	first large change
6	D7	A5	count	remain on IV
7	A7	E5	count	return to I
8	A7	E5	count	prepare V
9	E7	A7	PLAY	peak pressure
10	D7	A5	PLAY	step down
11	A7	E5	PLAY	close or launch
12	E7	A7	PLAY	turnaround

Landmark-only performance

```
Bars  1    2    3    4   | 5    6   | 7    8   | 9    10   11   12
Chord A7   A7   A7   A7  | D7   D7  | A7   A7  | E7   D7   A7   E7
Play  E5   --   --   --  | A5   --  | --   --  | A7   A5   E5   A7
Count 1    2    3    4   | 5    6   | 7    8   | 9    10   11   12
```

Let each played root last one beat, then mute. The difficult part is not the note; it is maintaining the silent bars and arriving at bar 9 without external help.

FAILURE TEST Stop counting aloud after bar 4. Continue internally and play only bars 5, 9, 10, 11, and 12.

Scale Exercises - Section V, Level 45

Module H - root-shuffle twelve-bar chorus

12 BARS | 48 ATTACKS

FOUR ATTACKS PER BAR: SHUFFLE PAIRS ON BEATS 1 AND 3

Every bar uses the mask X.X|...|X.X|.... Keep beats 2 and 4 completely empty. The root changes must not disturb the shuffle spacing.

Bars 1-4

```
Mask|X.X|...|X.X|...|  repeated for each bar
Bar |     1      |     2      |     3      |     4      |
Chd |     A7     |     A7     |     A7     |     A7     |
E   | 5--5--5--5 | 5--5--5--5 | 5--5--5--5 | 5--5--5--5 |
A   |------------|------------|------------|------------|
```

Bars 5-8

```
Mask|X.X|...|X.X|...|  repeated for each bar
Bar |     5      |     6      |     7      |     8      |
Chd |     D7     |     D7     |     A7     |     A7     |
E   |------------|------------| 5--5--5--5 | 5--5--5--5 |
A   | 5--5--5--5 | 5--5--5--5 |------------|------------|
```

Bars 9-12

```
Mask|X.X|...|X.X|...|  repeated for each bar
Bar |     9      |     10     |     11     |     12     |
Chd |     E7     |     D7     |     A7     |     E7     |
E   |------------|------------| 5--5--5--5 |------------|
A   | 7--7--7--7 | 5--5--5--5 |------------| 7--7--7--7 |
```

ENDING PASS Repeat bars 9-12 with bar 12 on A7/E5. Hear how the same rhythm changes from turnaround to closure.

Scale Exercises - Section V, Level 45

Module H - model twelve-bar rhythm chorus

12 BARS | 48 ATTACKS

FOUR SOUNDING NOTES PER BAR; THE RHYTHM MASK CHANGES WHILE THE FORM STAYS FIXED

Read each mini-card as one bar. Count the twelve-slot mask, play the four notes in order at the X positions, and preserve every period as silence. Marked F# and F in bar 12 are turnaround support notes.

1 A7

```
Mask|X.X|...|X..|..X|
G|5-7-5---|
D|------7-|
Nte|C D C A|
```

2 A7

```
Mask|...|X.X|...|X.X|
B|8-10-8-5|
Nte|G A G E|
```

3 A7

```
Mask|XXX|...|X..|...|
e|8-10-11-12|
Nte|C D Eb E|
```

4 A7

```
Mask|...|..X|X.X|X..|
B|8-10-13-10|
Nte|G A C A|
```

5 D7

```
Mask|X..|..X|X..|..X|
D|7-10-12-10|
Nte|A C D C|
```

6 D7

```
Mask|X.X|X..|...|..X|
A|5-7-10-12|
Nte|D E G A|
```

7 A7

```
Mask|XXX|...|...|X..|
E|5-8-10-12|
Nte|A C D E|
```

8 A7

```
Mask|X..|...|X.X|..X|
G|12-14-12-9|
Nte|G A G E|
```

9 E7

```
Mask|X.X|...|..X|X..|
A|7-6-5-7|
Nte|E Eb D E|
```

10 D7

```
Mask|X..|X..|..X|..X|
D|12-10-7-12|
Nte|D C A D|
```

11 A7

```
Mask|X..|..X|...|X.X|
B|10-8-5---|
G|-------5--|
Nte|A G E C|
```

12 E7

```
Mask|XXX|...|...|X..|
e|15-14-13-12|
Nte|G F#* F* E|
```

PERFORMANCE Play all 12 bars without stopping, then replay bars 9-12 alone until the E-D-A-E turnaround is unmistakable.

Scale Exercises - Section V, Level 45

Module I - turnaround entry and ending timing

6 CELLS | 48 ATTACKS

THE SAME NOTE LINE HAS A DIFFERENT FUNCTION WHEN ITS ENTRY MOVES BY ONE BEAT

Each card spans bars 11 and 12, except card 6, which crosses into the next chorus. Count the bars before adding the notes. Do not begin a memorized turnaround merely because the hand recognizes the shape.

1. Early bar-11 launch

```
B11 B|10-13-14-17|
B12 e|15-14-13-12|
Nte|A C C#* E | G F#* F* E|
```

8 attacks

2. Bar-11 beat-3 launch

```
B11 B|----10-13-14-17|
B12 e|15-14-13-12----|
Nte|same line; two beats later|
```

8 attacks

3. Bar-12 beat-1 compact

```
B11 R|full bar rest|
B12 e|8-9-10-11-12-11-10-12|
Nte|C C#* D Eb E Eb D E|
```

8 attacks

4. Bar-12 beat-2 launch

```
B12 G|--14-12-9-8-7-6-5--|
     B|----------------5--|
Nte|A G E Eb D C#* C E|
```

8 attacks

5. Tonic close on A

```
B11 e|12-10-8-5| B|8-5|
B12 G|5-----| D|--7~~~~|
Nte|E D C A G E C A|
```

8 attacks

6. Pickup into next chorus

```
B12 e|15-14-13-12|
NEXT E|5-8-10-12|
Nte|G F#* F* E | A C D E|
```

8 attacks

AUDIT Cards 1-4 must end on E/E7 material; card 5 must close on A; card 6 must make the next bar-1 A feel inevitable.

Scale Exercises - Section V, Level 45

Module J - metronome displacement and form recovery

5 PASSES | 60 ATTACKS

REDUCE THE NUMBER OF CLICKS WITHOUT CHANGING THE TWELVE-BAR LENGTH

Use the landmark root pass: one root on beat 1 of every bar. The note sequence is always A-A-A-A-D-D-A-A-E-D-A-E. Only the click placement changes.

Five displacement passes

Pass	Click placement	Clicks per 12 bars	Task
1	every quarter note	48	count triplets; verify shuffle grid
2	beats 2 and 4	24	feel beat 1 without a click
3	beat 1 only	12	name each bar and chord
4	beat 4 only	12	hear the next downbeat internally
5	one click every two bars	6	maintain form across long spaces

Root tablature for every pass

```
Bars 1-4    E|5--|5--|5--|5--|
Bars 5-8    A|5--|5--|    |    |
            E|    |    |5--|5--|
Bars 9-12   A|7--|5--|    |7--|
            E|    |    |5--|    |
```

COUNT 12 root attacks per pass; 5 passes = 60 attacks.

Form-recovery drill

Run pass 2. Mute or ignore the click for bars 5-8, continue counting, and restore the click at bar 9. The first note after the gap must be E at A-string fret 7. Repeat with random four-bar click dropouts.

FAIL Landing on D or A at bar 9 proves the form was lost during silence.

TEMPO RULE Do not increase BPM during a click-reduction session. Fewer clicks already make the exercise harder.

RECORD Listen for rushing in bars 3-4, 7-8, and the bar-11-to-bar-12 transition.

Scale Exercises - Section V, Level 45

Level 45 capstone - three-chorus rhythm circuit

36 BARS | REUSES PRIOR MATERIAL

DO NOT STOP BETWEEN CHORUSES; CHANGE THE DENSITY WHILE THE FORM CONTINUES

The capstone combines existing modules, so its notes are not added to the 540-attack workload. Use a click on beats 2 and 4. Count bar numbers internally and announce the start of each chorus before playing.

Circuit design

Chorus	Material	Attacks	Bar-12 choice	Primary audit
1	one root on beat 1 of every bar	12	E7 turnaround	form and silence
2	root-shuffle chorus from page 12	48	E7 turnaround	outer-triplet spacing
3	model vocabulary chorus from page 13	48	A7 tonic close	rhythm masks and ending choice

No-stop transition rules

1. Bar 12 of chorus 1 points to chorus 2.
2. Bar 12 of chorus 2 points to chorus 3.
3. Bar 12 of chorus 3 closes on A.
4. The foot pulse never pauses.
5. The pick may remain still during rests.

Recording review

Can the listener identify bars 5 and 9?

Do shuffle pairs remain equal across chord changes?

Are long rests complete rather than shortened?

Does chorus 3 feel denser without speeding up?

Does the final A sound closed rather than accidental?

Optional partner test

A partner calls STOP after any bar. State the completed bar number, the current chord, and the next chord. Resume on the following bar without restarting the chorus.

PASS Three choruses remain in form, the density changes are audible, and the ending choice is unmistakable.

Scale Exercises - Section V, Level 45

Practice progression, error diagnosis, and advancement rules

BUILD FORM BEFORE SPEED

LEVEL 45 PRACTICE PROGRESSION

Ten-phase progression

1. Clap the straight and shuffle grids.
2. Complete all single-note placement cards.
3. Play the three root-form passes.
4. Land every pickup on the new bar.
5. Preserve all six rest cards.
6. Link the three call-response studies.
7. Complete the stop-time chain.
8. Perform both twelve-bar choruses.
9. Execute all six turnaround entries.
10. Complete the click-displacement passes and capstone.

Error diagnosis

RUSHED SHUFFLE	return to one note per click; count the silent middle slot
SHORT REST	mute the strings and clap the entire two-bar mask
LATE PICKUP	loop only beat 4 into the next downbeat
LOST FORM	use roots only and speak every bar number
EARLY TURNAROUND	count bars 9-10-11 aloud before playing the line
CLICK DEPENDENCE	reduce route length before reducing click frequency

ADVANCEMENT RULES

Advance only when rhythm and form remain stable together

Add 2 BPM after three clean repetitions of the current module.

After two errors, reduce 4-6 BPM or shorten the exercise to four bars.

Increase route length before speed when bar numbers are uncertain.

Increase speed before click reduction when the form is secure but the hands are slow.

Stop after any pain, persistent tension, or uncontrolled bend motion.

ADVANCE TO LEVEL 46 Only after the twelve-bar form can be heard and maintained during rests, pickups, stop-time, and turnaround choices.

Scale Exercises - Section V, Level 45

Mastery gate, completion audit, practice log, and next level

NEXT: LEVEL 46 - DOMINANT CHORD TARGETING

LEVEL 45 MASTERY GATE

Perform the straight/shuffle comparisons without changing tempo; complete all eight triplet-placement cards; play all three twelve-bar root passes; land nine pickups on the new bar; preserve six rest studies; link three call-and-response studies; execute the stop-time chain; complete the landmark, root-shuffle, and model choruses; play all six turnaround entries; finish all five click-displacement passes; and complete the three-chorus capstone on two separate days.

Completion audit

- ☐ Three straight/shuffle pattern pairs
- ☐ Eight single-note placement cards
- ☐ Three root-form passes
- ☐ Nine pickup cells
- ☐ Six rest-and-entry cards
- ☐ Three call-response studies
- ☐ Four stop-time studies
- ☐ Landmark pass and two 12-bar choruses
- ☐ Six turnaround timing cells
- ☐ Five metronome-displacement passes
- ☐ Three-chorus capstone
- ☐ Two separate clean days

Practice log

Date	Focus	BPM	Click	Form error	Rhythm error	Weak bar / pickup / ending	Next target

NEXT Level 46 maps A7, D7, and E7 chord tones, then trains beat-one targets and guide-tone voice leading through the same twelve-bar form.
