# Scale Exercises - Section V, Level 46

A7-D7-E7 chord-tone targeting, guide-tone shells, and twelve-bar voice leading

**FIXED KEY: A | 8 MODULES | 704 TONES**

Level 45 secured the shuffle grid and the twelve-bar form. Level 46 now makes the harmony audible through note choice. The A blues vocabulary remains available, but every chord change receives an intentional root, third, fifth, or flat seventh. The thirds and flat sevenths become the guide tones that define each dominant chord.

### 1. Land before filling

Hear and name the next target before the bar arrives. The fill is optional; the beat-one landing is not.

### 2. Track the tritone

The third and flat seventh form the dominant guide-tone shell. Move those voices smoothly through every chord change.

### 3. Keep blues color functional

C, Eb, G, and other color tones may remain in motion. Resolve them when the active chord requires a clearer target.

## Dominant chord tones and guide tones

```
A7 = A  C# E  G     roles: R  3  5  b7
D7 = D  F# A  C     roles: R  3  5  b7
E7 = E  G# B  D     roles: R  3  5  b7

GUIDE-TONE SHELLS
A7: C# + G     D7: F# + C     E7: G# + D

A7 -> D7: C#->C and G->F#     both voices fall one half step
D7 -> A7: C->C# and F#->G     both voices rise one half step
A7 -> E7: C#->D and G->G#     both voices rise one half step
E7 -> A7: D->C# and G#->G     both voices fall one half step
```

## Written core workload

| Module | Tones |
|---|---|
| A - target cells | 294 |
| B - guide shells | 30 |
| C - target choruses | 48 |
| D - guide lines | 120 |
| E - five phrases | 80 |
| F - third arrivals | 60 |
| G - model chorus | 48 |
| H - recovery cards | 24 |
| TOTAL | 704 |

## Session protocol

Choose one target-cell position, one guide-tone exercise, and one twelve-bar application. Begin with whole notes or quarter notes. Add shuffle pickups only after the landing pitch and bar number are reliable. Use clean tone first; distortion can hide a weak target and exaggerate poor muting.

**ASTERISK RULE** C#, F#, G#, and B are chord-completion tones when they are outside the A-blues pitch pool.

### A-blues notes and their roles over A7, D7, and E7

| Note | A7 role | D7 role | E7 role | Practice use |
|---|---|---|---|---|
| A | R | 5 | 11 | tonic over A7; common tone into D7 |
| C | b3 / blue | b7 | b13 | strong over D7; shade toward C# over A7 |
| D | 11 | R | b7 | root of D7; guide tone over E7 |
| Eb | b5 | b9 | M7 chromatic | passing tension; do not land accidentally |
| E | 5 | 9 | R | stable over A7 and E7 |
| G | b7 | 11 | #9 | guide tone over A7; blues color over E7 |

### Completion-tone map

| Tone | Chord job | Common approach |
|---|---|---|
| C# | 3 of A7 | C slide or half-step bend |
| F# | 3 of D7 | E slide or whole-step bend |
| G# | 3 of E7 | G slide or half-step bend |
| B | 5 of E7 | C down or A up |

### Guide-tone change map

| Change | Upper voice | Lower voice |
|---|---|---|
| A7 -> D7 | C# -> C | G -> F# |
| D7 -> A7 | C -> C# | F# -> G |
| A7 -> E7 | C# -> D | G -> G# |
| E7 -> D7 | D -> C | G# -> F# |

### Notation and practice order

> marks the beat-one target. R, 3, 5, and b7 are chord roles. Color labels such as b3, #9, 11, and b13 describe motion notes. First sustain the target; next add two pickup notes; only then use a complete blues phrase.

**15 DYADS | 30 TONES**

## PLAY THE THIRD AND FLAT SEVENTH TOGETHER; ROOTS AND FIFTHS ARE OMITTED

Each two-note shell contains the tritone that defines the dominant chord. Hold each dyad for four beats, mute, then move to the next chord. Play the progression A7-D7-A7-E7-D7-A7-E7 before applying the full twelve-bar form.

### P1 - guide-tone dyads

**4 PASSES | 48 HELD TONES**

## ONE TARGET PER BAR; THE CHORD CHANGE MUST BE AUDIBLE BEFORE ANY FILL IS ADDED

Hold each target for the complete bar. Speak the bar number and chord before the note. The fourth pass mixes chord roles and prepares the guide-tone lines on the next pages.

### Three-stage target drill

1. Whole-note target only. 2. Two pickup notes on beat 4, then the target on the next beat 1. 3. A short shuffle phrase after the target, leaving beat 4 open.

### Failure test

Mute the backing track. Play only the third pass. A listener should still hear A7, D7, and E7 from the target changes alone. If not, lengthen the notes and reduce the register movement.

**FORM RULE** Bar 12 uses E7 for continuation. Replace it with A7 only when practicing a final tonic ending.

# Scale Exercises - Section V, Level 46

Module E - five position-specific four-bar target phrases

**P5 | 16 TONES**

## THE FIRST NOTE OF EVERY BAR IS A CHORD TONE; COLOR NOTES FOLLOW AFTER THE LANDING

Progression: | A7 | D7 | E7 | A7 |. Begin as quarter notes. On a second pass, convert notes 2-4 of each bar into shuffle pickups while leaving the beat-one target unchanged.

### P5 - 16-note chord-target phrase

Beat-one targets: A7:A(R) | D7:F#(3) | E7:G#(3) | A7:A(R)

```
Nte|A---C#--E---G---|F#--A---C---D---|G#--B---D---E---|A---G---E---C#--|

 G|14--------------|--------17------|----16----------|----------------|
 D|----------------|----------------|----------------|----------------|
 A|----------------|----------------|----------------|----------------|
 E|----------------|----------------|----------------|----------------|
```

**AUDIT** The chord role changes at each barline; do not restart the pick cycle or over-accent a color note.

### Transformation passes

1. Replace the final note of each bar while keeping the same beat-one target. 2. Keep the pitches and move the phrase one octave lower. 3. Add one Level-42 articulation per bar. 4. Leave beat 4 empty. 5. Invent a response in the next position with the same target schedule.

# Scale Exercises - Section V, Level 46

Module F - articulate into the dominant third: A7 and D7

**10 SITES | 40 TONES**

## PLAY THE FRETTED TARGET FIRST; THE BEND OR SLIDE MUST MATCH IT

The A7 third C# is reached from the blues b3 C. The D7 third F# is reached from E, the ninth of D7. Each site uses four events: target, slide, bend, and bend-release.

### A7 - C to C# (blue third to major third)

| String | Target | Slide | Bend | Release | Function |
|---|---|---|---|---|---|
| E | C# 9 | 8/9 | 8b(9) | 8b(9)r8 | b3 -> 3 |
| D | C# 11 | 10/11 | 10b(11) | 10b(11)r10 | b3 -> 3 |
| G | C# 6 | 5/6 | 5b(6) | 5b(6)r5 | b3 -> 3 |
| B | C# 14 | 13/14 | 13b(14) | 13b(14)r13 | b3 -> 3 |
| e | C# 9 | 8/9 | 8b(9) | 8b(9)r8 | b3 -> 3 |

### D7 - E to F# (ninth to major third)

| String | Target | Slide | Bend | Release | Function |
|---|---|---|---|---|---|
| A | F# 9 | 7/9 | 7b(9) | 7b(9)r7 | 9 -> 3 |
| D | F# 16 | 14/16 | 14b(16) | 14b(16)r14 | 9 -> 3 |
| G | F# 11 | 9/11 | 9b(11) | 9b(11)r9 | 9 -> 3 |
| B | F# 7 | 5/7 | 5b(7) | 5b(7)r5 | 9 -> 3 |
| e | F# 14 | 12/14 | 12b(14) | 12b(14)r12 | 9 -> 3 |

**PHYSICAL RULE** Support the bend with adjacent fingers where practical; stop immediately if the motion causes pain.

# Scale Exercises - Section V, Level 46

Module F - articulate into the E7 third and compare all three arrivals

**5 SITES | 20 TONES**

## G TO G# CHANGES THE BLUES #9 COLOR INTO THE MAJOR THIRD OF E7

### E7 - G to G# (#9 to major third)

| String | Target | Slide | Bend | Release | Function |
|---|---|---|---|---|---|
| E | G# 16 | 15/16 | 15b(16) | 15b(16)r15 | #9 -> 3 |
| D | G# 6 | 5/6 | 5b(6) | 5b(6)r5 | #9 -> 3 |
| G | G# 13 | 12/13 | 12b(13) | 12b(13)r12 | #9 -> 3 |
| B | G# 9 | 8/9 | 8b(9) | 8b(9)r8 | #9 -> 3 |
| e | G# 16 | 15/16 | 15b(16) | 15b(16)r15 | #9 -> 3 |

### Three dominant-third arrivals

```
A7: C  -> C#   half step   b3 -> 3
D7: E  -> F#   whole step  9  -> 3
E7: G  -> G#   half step   #9 -> 3
```

### Ear-matching sequence

Play the fretted target, sing it, bend to it, release, and re-play the target. Record the sequence. A bend is correct only when the pitch center matches, not merely when the hand moves the expected distance.

**MUSICAL RULE** Use the completion tone while its chord is sounding. Return to the A-blues pool or another chord tone after the resolution.

**MUTING** Bend toward the center of the neck and mute adjacent strings with both hands.

## KEEP THE FORM MOVING; RESOLVE A WEAK NOTE TO THE NEAREST STRONG TARGET

A mistake does not require abandoning the chorus. Preserve the pulse, identify the active chord, and resolve by the next strong subdivision. Practice the printed two-note recovery cells before using them in free playing.

### Three-pass improvisation ladder

1. One whole-note target per bar. 2. Target plus two pickup notes before each change. 3. Free shuffle phrases with the same target schedule and one full-beat rest per four bars.

### Target-substitution drill

Replay the model chorus and change only beat 1: roots, then thirds, then flat sevenths. Keep every remaining note and rhythm unchanged.

# Scale Exercises - Section V, Level 46

Level 46 practice progression, mastery gate, and log

NEXT: MAJOR/MINOR PENTATONIC MIXING

**ADVANCE ONLY WHEN THE CHORD CHANGES ARE AUDIBLE WITHOUT THE BACKING TRACK**

## Ten-phase practice progression

1. Speak all A7, D7, and E7 chord tones.
2. Play one P1 target cell for each chord.
3. Complete all fifteen target cells with both pick starts.
4. Hold every guide-tone shell for four beats.
5. Play root, third, b7, and mixed target choruses.
6. Complete both guide-tone voices in all five registers.
7. Play all five four-bar position phrases.
8. Match all fifteen completion-tone bends and slides.
9. Perform the written twelve-bar chorus twice.
10. Improvise one new chorus with the same target schedule.

## Error diagnosis

| | |
|---|---|
| SCALE-RUN AUTOPILOT | remove the fill; sustain one target per bar |
| WRONG THIRD | play the fretted target before any bend or slide |
| FORM LOSS | return to roots and speak bars 5, 9, 10, 11, and 12 |
| GUIDE-TONE JUMP | choose the nearer octave; move by half step where possible |
| OVERFILLED BAR | leave beat 4 empty and let the target ring |
| BEND DRIFT | compare to the fretted target and reduce the bend width |
| FRET SEARCH | name string and fret before leaving the current target |

## Mastery gate before Level 47

Name and locate the root, third, fifth, and flat seventh of A7, D7, and E7; play all fifteen chord-tone cells with both pick starts; perform the five guide-tone shell sets and both single-line voices in all five registers; complete the four target choruses; match every printed third-arrival bend or slide; play the model twelve-bar chorus on two separate days; and improvise one chorus whose changes remain audible without accompaniment.

## Completion audit and practice log
